Consolidated financial statements

Consolidated balance sheets as of March 31, 2026 (unaudited), and December 31, 2025 (unaudited), and 2025 (unaudited)	2
Consolidated statements of operations for the three months ended March 31, 2026 (unaudited), and 2025 (unaudited)	4
Consolidated statements of comprehensive income (loss) for the three months ended March 31, 2026 (unaudited), and 2025 (unaudited)	5
Consolidated statements of redeemable non-controlling interests and equity for the three months ended March 31, 2026 (unaudited) to 2025 (unaudited)	6
Consolidated statements of cash flows for the three months ended March 31, 2026 (unaudited), and 2025 (unaudited)	8

Notes to the consolidated financial statements

1. Nature of business	10
2. Significant accounting policies	10
3. Investments	12
4. Derivative instruments	25
5. Fair value disclosure of financial instruments	33
6. Insurance intangibles assets and liabilities	46
7. Policy liabilities	48
8. Reinsurance	57
9. Debt	59
10. Composition of other assets and liabilities	60
11. Accumulated other comprehensive income (loss)	62
12. Equity-based compensation plans	62
13. Income taxes	64
14. Related party transactions	65
15. Commitments and contingencies	67
16. Subsequent events	69

Consolidated balance sheets

	March 31, 2026	December 31, 2025
(\$ in millions, except share data)		
Assets		
Investments:		
Fixed maturity securities, available-for-sale, at fair value (amortized cost: \$99,161 and \$101,867, respectively; variable interest entities: \$10,664 and \$11,427, respectively; net of allowances: \$317 and \$289, respectively; and related party: \$5,561 and \$5,540, respectively.)	\$ 92,068	\$ 95,672
Fixed maturity securities, trading, at fair value (amortized cost: \$29,062 and \$28,443, respectively; variable interest entities: \$464 and \$428, respectively; and related party: \$1,577 and \$1,355, respectively.)	26,670	26,420
Mortgage and other loan receivables (portion at fair value: \$12,700 and \$11,155, respectively; variable interest entities: \$4,376 and \$4,461, respectively; and net of allowances: \$717 and \$609, respectively.)	52,780	53,639
Funds withheld receivable at interest (portion at fair value: \$60 and \$79, respectively.)	2,267	2,324
Real assets (portion at fair value: \$8,776 and \$8,723, respectively, net of accumulated depreciation: \$801 and \$782, respectively; variable interest entities: \$14,158 and \$14,203, respectively; and related party: \$340 and \$339, respectively.)	15,401	15,370
Other investments (portion at fair value: \$5,087 and \$4,108, respectively; variable interest entities: \$798 and \$631, respectively; and related party: \$3,310 and \$2,787, respectively.)	8,041	6,936
Total investments	197,227	200,361
Cash and cash equivalents (variable interest entities: \$1,696 and \$1,382, respectively.)	9,927	7,511
Restricted cash and cash equivalents	244	212
Accrued investment income (variable interest entities: \$238 and \$303, respectively.)	1,748	1,777
Reinsurance recoverable (portion at fair value: \$932 and \$934, respectively; net of allowances: \$25 and \$20, respectively.)	50,453	48,023
Insurance intangibles	5,929	5,905
Other assets (variable interest entities: \$736 and \$486, respectively; market risk benefit assets: \$1 and \$1, respectively.)	5,443	5,020
Separate account assets	3,585	3,841
Total assets	\$ 274,556	\$ 272,650
Liabilities		
Policy liabilities (portion at fair value: \$1,658 and \$1,609, respectively; market risk benefit liabilities: \$1,404 and \$1,350, respectively.)	\$ 204,727	\$ 205,559
Debt (variable interest entities: \$207 and \$197, respectively.)	3,813	3,820

See accompanying notes to consolidated financial statements.

1. Nature of business

Global Atlantic Limited (Delaware), a Delaware corporation, (together with its subsidiaries, “Global Atlantic,” the “Company,” we, our, or us) is a leading United States, or “U.S.,” retirement and life insurance company focused on delivering meaningful long-term value for our customers and shareholders.

The Company is a leading insurance company meeting the retirement and life insurance needs of individuals and institutions. The Company primarily offers individuals fixed-rate annuities, fixed-indexed annuities, and targeted life products through a network of banks, broker-dealers, and independent marketing organizations.

2. Significant accounting policies

In addition to the new or revised accounting policies detailed below, for additional information on the Company’s other significant accounting policies, see Note 2—“Basis of presentation and significant accounting policies and practices” in the Company’s audited consolidated financial statements as of December 31, 2025.

Effective beginning in the first quarter of 2026, the Company changed the presentation of certain operating expenses in its Consolidated Statements of Operations. Amounts previously presented separately as “Insurance Expenses” and “General, Administrative and Other” are now presented in a single line item, “Policy and Other Operating Expense”. Prior-period amounts have been reclassified to conform to the current period presentation. This change in presentation had no impact on previously reported consolidated total expenses, income before taxes, and net income attributable to Global Atlantic Limited (Delaware) shareholder.

Adoption of new accounting pronouncements

Measurement of Credit Losses for Accounts Receivable and Contract Assets

In July 2025, the FASB issued ASU 2025-05, “Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets” (“ASU 2025-05”). ASU 2025-05 simplifies the application of the current expected credit loss model for current accounts receivable and current contract assets under ASC 606. The Company adopted this accounting standard effective for the year ended December 31, 2026, and its adoption did not have a material impact on its consolidated financial statements.

Future application of accounting standards

Determining the Accounting Acquirer in the Acquisition of a Variable Interest Entity

In May 2025, the FASB issued ASU 2025-03, “Business Combinations (Topic 805) and Consolidation (Topic 810): Determining the Accounting Acquirer in the Acquisition of a Variable Interest Entity” (“ASU 2025-03”). ASU 2025-03 requires an entity involved in an acquisition transaction effected primarily by exchanging equity interests when the legal acquiree is a variable interest entity (“VIE”) that meets the definition of a business to consider factors to determine which entity is the accounting acquirer. The update will be effective for annual periods (and interim periods in annual

reporting periods) beginning after December 15, 2026. The Company does not expect the adoption to have a material impact on its consolidated financial statements or disclosures.

Targeted Improvements to the Accounting for Internal-Use Software

In September 2025, the FASB issued ASU 2025-06, "Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software" ("ASU 2025-06"). ASU 2025-06 eliminates accounting consideration of software project development stages; requires to begin capitalizing software costs when (1) management has authorized and committed to funding the project and (2) it is 'probable' the project will be completed and the software used to perform its intended function (the 'probable-to-complete' threshold.) ASU 2025-06 also enhances the guidance around the 'probable-to-complete' threshold. The update will be effective for annual periods and interim periods in annual reporting periods beginning after December 15, 2027. The Company is currently evaluating the impact of adopting this guidance on its consolidated financial statements and disclosures.

Financial Instruments—Credit Losses (Topic 326): Purchased Loans

In November 2025, the FASB issued ASU 2025-08, "Financial Instruments - Credit Losses (Topic 326) - Purchased Loans" ("ASU 2025-08"). ASU 2025-08 expands the population of purchased financial assets subject to the gross-up approach in Topic 326. As a result of this update, loans (excluding credit cards) acquired without credit deterioration and deemed "seasoned" as defined in the ASU will follow the gross-up approach at acquisition and the initial allowance for credit losses is added to the purchase price to determine the amortized cost basis of the loans. The update is effective for fiscal years beginning after December 15, 2026, including interim periods within those fiscal years, and is to be applied prospectively to loans acquired on or after adoption; early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance on its consolidated financial statements and disclosures.

3. Investments

Fixed maturity securities

The cost or amortized cost and fair value for available-for-sale, or "AFS," fixed maturity securities were as follows:

As of March 31, 2026	Cost or amortized cost	Allowance for credit losses ⁽⁴⁾⁽⁵⁾	Gross unrealized		Fair value
			gains	losses	
(\$ in millions)					
AFS fixed maturity securities portfolio by type:					
U.S. government and agencies	\$ 504	\$ —	\$ 1	\$ (118)	\$ 387
U.S. state, municipal, and political subdivisions	2,944	—	3	(708)	2,239
Corporate ⁽¹⁾	61,536	(143)	317	(6,024)	55,686
Residential mortgage-backed securities, or "RMBS"	12,715	(108)	109	(252)	12,464
Commercial mortgage-backed securities, or "CMBS"	8,054	(56)	45	(166)	7,877
Asset-Backed Securities, or "ABSs" ⁽²⁾ and other structured securities	7,370	(7)	74	(45)	7,392
Collateralized loan obligations, or "CLOs" ⁽³⁾	6,038	(3)	17	(29)	6,023
Total AFS fixed maturity securities	\$ 99,161	\$ (317)	\$ 566	\$ (7,342)	\$ 92,068

(1) Includes related party KKR corporate fixed maturity securities with amortized cost, allowance for credit loss, gross unrealized gains, gross unrealized losses, and fair value of \$4.8 billion, \$0 million, \$10 million, \$(111) million, and \$4.7 billion, respectively.

(2) Includes related party KKR asset-backed and other structured securities with amortized cost, allowance for credit loss, gross unrealized gains, gross unrealized losses, and fair value of \$3 million, \$— million, \$— million, \$(26) thousand, and \$3 million, respectively.

(3) Includes related party KKR collateralized loan obligations with amortized cost, allowance for credit loss, gross unrealized gains, gross unrealized losses, and fair value of \$854 million, \$0 million, \$1 million, \$(2) million, and \$854 million, respectively.

(4) Represents the cumulative amount of credit impairments that have been recognized in the consolidated statements of income (loss) (as net investment gains (losses)) or that were recognized as a gross-up of the purchase price of PCD securities. Amount excludes unrealized losses related to non-credit impairment.

(5) Includes credit loss allowances on purchase-credit deteriorated fixed maturity securities of \$(6) million.

As of December 31, 2025	Cost or amortized cost	Allowance for credit losses ⁽⁴⁾⁽⁵⁾	Gross unrealized		Fair value
			gains	losses	
(\$ in millions)					
AFS fixed maturity securities portfolio by type:					
U.S. government and agencies	\$ 525	\$ —	\$ 1	\$ (115)	\$ 411

CMBS	8,277	(56)	71	(173)	8,119
ABSs ⁽²⁾ and other structured securities	6,910	(6)	84	(38)	6,950
CLOs ⁽³⁾	6,401	(3)	35	(19)	6,414
Total AFS fixed maturity securities	\$ 101,867	\$ (289)	\$ 942	\$ (6,848)	\$ 95,672

(1) Includes related party KKR corporate AFS fixed maturity securities with amortized cost, allowance for credit loss, gross unrealized gains, gross unrealized losses, and fair value of \$4.7 billion, — million, \$14 million, \$(98) million, and \$4.7 billion, respectively.

(2) Includes related party KKR asset-backed and other structured securities with amortized cost, allowance for credit loss, gross unrealized gains, gross unrealized losses, and fair value of \$3 million, \$— million, \$— million, \$(36) thousand, and \$3 million, respectively.

- (3) Includes related party KKR collateralized loan obligations with amortized cost, allowance for credit loss, gross unrealized gains, gross unrealized losses, and fair value of \$878 million, \$— million, \$3 million, \$(2) million, and \$880 million, respectively.
- (4) Represents the cumulative amount of credit impairments that have been recognized in the consolidated statements of income (loss) (as net investment gains (losses)) or that were recognized as a gross-up of the purchase price of PCD securities. Amount excludes unrealized losses related to non-credit impairment.
- (5) Includes credit loss allowances on purchase-credit deteriorated fixed maturity securities of \$(6) million.

The maturity distribution for AFS fixed maturity securities is as follows:

As of March 31, 2026 (\$ in millions)	Cost or amortized cost (net of allowance)	Fair value
Due in one year or less	\$ 797	\$ 790
Due after one year through five years	13,213	12,993
Due after five years through ten years	14,573	14,478
Due after ten years	36,258	30,051
Subtotal⁽¹⁾	64,841	58,312
RMBS	12,607	12,464
CMBS	7,998	7,877
ABSs ⁽²⁾ and other structured securities	7,363	7,392
CLOs ⁽³⁾	6,035	6,023
Total AFS fixed maturity securities	\$ 98,844	\$ 92,068

(1) Includes related party KKR corporate fixed maturity securities with amortized cost and fair value of \$4.8 billion and \$4.7 billion.

(2) Includes related party KKR asset-backed and other structured securities with amortized cost and fair value of both \$3 million.

(3) Includes related party KKR collateralized loan obligations with amortized cost and fair value of both \$854 million.

Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties, or the Company may have the right to put or sell the obligations back to the issuers. Structured securities are shown separately as they have periodic payments and are not due at a single maturity.

Securities in a continuous unrealized loss position

The following tables provide information about AFS fixed maturity securities that have been continuously in an unrealized loss position:

As of March 31, 2026 (\$ in millions)	Less than 12 months		12 months or more		Total

Unrealized gains and losses can be created by changing interest rates or several other factors, including changing credit spreads. The Company had gross unrealized losses on below investment grade AFS fixed maturity securities of \$324 million and \$280 million as of March 31, 2026, and December 31, 2025, respectively. The single largest unrealized loss on AFS fixed maturity securities was \$46 million and \$44 million as of March 31, 2026, and December 31, 2025, respectively. The Company had 5,431 and 4,308 securities in an unrealized loss position as of March 31, 2026, and December 31, 2025, respectively.

As of March 31, 2026, AFS fixed maturity securities in an unrealized loss position for 12 months or more consisted of 2,708 fixed maturity securities. AFS fixed maturity securities in an unrealized loss position for 12 months or more with an allowance for credit losses had a fair value and gross unrealized losses of \$1.3 billion and \$123 million, respectively, as of March 31, 2026. These fixed maturity securities primarily relate to Corporate, RMBS, and U.S. state, municipal, and political subdivisions fixed maturity securities, which have depressed values due primarily to an increase in interest rates since the purchase of these securities. Unrealized losses were not recognized in net income (loss) on these fixed maturity securities since the Company neither intends to sell the securities nor does it believe that it is more likely than not that it will be required to sell these securities before recovery of their cost or amortized cost basis. For securities with significant declines in value, individual security level analysis was performed utilizing underlying collateral default expectations, market data, and industry analyst reports.

Allowance for credit losses on fixed maturity securities

The table below presents a roll-forward of the allowance for credit losses recognized for fixed maturity securities held by the Company:

	Three months ended March 31, 2026			Three months ended March 31, 2025		
	Corporate	Structured	Total	Corporate	Structured	Total
(\$ in millions)						
Balance, as of beginning of period	\$ 108	\$ 181	\$ 289	\$ 99	\$ 176	\$ 275
Initial credit loss allowance recognized on securities with no previously recognized allowance	46	—	46	19	18	37

Reductions due to sales (or maturities, pay downs or prepayments) during the period of securities with a previously recognized credit loss allowance	(2)	(2)	(4)	—	(15)	(15)
Net additions / reductions for securities with a previously recognized credit loss allowance	14	(5)	9	1	10	11
Balances charged off	(23)	—	(23)	(43)	—	(43)
Balance, as of end of period	\$ 143	\$ 174	\$ 317	\$ 76	\$ 189	\$ 265

Mortgage and other loan receivables

Mortgage and other loan receivables consist of the following:

	March 31, 2026	December 31, 2025
(\$ in millions)		
Commercial mortgage loans ⁽¹⁾	\$ 26,142	\$ 27,024
Residential mortgage loans ⁽¹⁾	21,961	21,697
Consumer loans ⁽¹⁾	3,677	3,928
Other loan receivables ⁽¹⁾⁽²⁾	1,717	1,599
Total mortgage and other loan receivables	\$ 53,497	\$ 54,248
Allowance for credit losses ⁽³⁾	(717)	(609)
Total mortgage and other loan receivables, net of allowance for credit losses	\$ 52,780	\$ 53,639

- (1) Includes \$12.7 billion and \$11.2 billion of loans carried at fair value using the fair value option as of March 31, 2026, and December 31, 2025, respectively. These loans had unpaid principal balances of \$12.9 billion and \$11.3 billion as of March 31, 2026, and December 31, 2025, respectively.
- (2) As of March 31, 2026, other loan receivables consisted primarily of business loans, warehouse facility loans backed by agricultural mortgages, renewable energy development loans, loans collateralized by aircraft, and loans collateralized by residential mortgages, of \$615 million, \$295 million, \$364 million, \$221 million, \$200 million, and respectively. As of December 31, 2025, other loan receivables consisted primarily of renewable energy development loans, warehouse facility loans backed by agricultural mortgages, loans collateralized by aircraft, and loans collateralized by residential mortgages of \$416 million, \$369 million, \$347 million, \$246 million and \$200 million, respectively.
- (3) Includes credit loss allowances on purchase-credit deteriorated mortgage and other loan receivables of \$(40) million and \$(42) million as of March 31, 2026, and December 31, 2025, respectively.

The maturity distribution for residential and commercial mortgage loans was as follows as of March 31, 2026:

Years	Residential	Commercial	Total mortgage loans
(\$ in millions)			
Remainder of 2026	\$ 247	\$ 6,908	\$ 7,155
2027	502	8,906	9,408
2028	298	3,014	3,312
2029	7	2,151	2,158
2030	8	683	691
2031	299	1,486	1,785
Thereafter	20,600	2,994	23,594
Total	\$ 21,961	\$ 26,142	\$ 48,103

Actual maturities could differ from contractual maturities because borrowers may have the right to prepay (with or without prepayment penalties) and loans may be refinanced.

The Company diversifies its mortgage loan portfolio by both geographic region and property type to reduce concentration risk. The following tables present the mortgage loans by geographic region and property type:

Mortgage loans - carrying value by geographic region	March 31,		December 31,	
(\$ in millions)	2026		2025	
South Atlantic	\$ 12,809	26.6 %	\$ 12,800	26.3 %

Loan-to-value ratio on mortgage loans

The loan-to-value ratio is expressed as a percentage of the current amount of the loan relative to the value of the underlying collateral. The following table summarizes the Company's loan-to-value ratios for its commercial mortgage loans as of March 31, 2026, and December 31, 2025:

Loan-to-value as of March 31, 2026, by year of origination	Carrying value loan-to-value 70% and less	Carrying value loan-to-value 71% - 90%	Carrying value loan-to-value over 90%	Total carrying value
(\$ in millions)				
2026	\$ —	\$ —	\$ —	\$ —
2025	3,784	147	—	3,931
2024	4,873	147	—	5,020
2023	2,697	—	—	2,697
2022	4,675	335	—	5,010
2021	4,269	1,349	113	5,731
Prior	3,293	68	392	3,753
Total commercial mortgage loans	\$ 23,591	\$ 2,046	\$ 505	\$ 26,142

Loan-to-value as of December 31, 2025, by year of origination	Carrying value loan-to-value 70% and less	Carrying value loan-to-value 71% - 90%	Carrying value loan-to-value over 90%	Total carrying value
(\$ in millions)				
2025	\$ 3,662	\$ 189	\$ —	\$ 3,851

2023	3,215	—	—	3,215
2022	4,719	409	35	5,163
2021	4,428	1,285	198	5,911
2020	377	90	33	500
Prior	3,058	83	227	3,368
Total commercial mortgage loans	\$ 24,324	\$ 2,207	\$ 493	\$ 27,024

Changing economic conditions and updated assumptions affect the Company's assessment of the collectibility of commercial mortgage loans. Changing vacancies and rents are incorporated into the analysis that the Company performs to measure the allowance for credit losses. In addition, the Company continuously monitors its commercial mortgage loan portfolio to identify risk. Areas of emphasis are properties that have exposure to specific geographic events or have deteriorating credit.

The weighted average loan-to-value ratio for the Company's residential mortgage loans was 64% and 64% as of March 31, 2026, and December 31, 2025, respectively.

Loan modifications

The Company may modify the terms of a loan when the borrower is experiencing financial difficulties, as a means to optimize recovery of amounts due on the loan. Modifications may involve temporary relief, such as payment forbearance for a short period of time (where interest continues to accrue) or may involve more substantive changes to a loan. Changes to the terms of a loan, pursuant to a modification agreement, are factored into the analysis of the loan's expected credit losses, under the allowance model applicable to the loan.

For commercial mortgage loans, modifications for borrowers experiencing financial difficulty are tailored for individual loans and may include interest rate relief, maturity extensions or, less frequently, principal forgiveness. For both residential mortgage loans and consumer loans, the most common modifications for borrowers experiencing financial difficulty, aside from insignificant delays in payment, typically involve deferral of missed payments to the end of the loan term, interest rate relief, or maturity extensions.

The tables below present the carrying value of loans to borrowers experiencing financial difficulty, for which modifications have been granted during the three months ended March 31, 2026, and 2025:

Three months ended March 31, 2026, by loan type	Deferral of Amounts Due	Interest Rate Relief	Maturity Extension	Combination ⁽¹⁾	Total	Percentage of total carrying value outstanding
(\$ in millions)						
Commercial mortgage loans	\$ —	\$ —	\$ —	\$ 79	\$ 79	0.30 %
Residential mortgage loans	1	—	—	1	2	0.01 %
Consumer loans	2	—	5	8	15	0.37 %
Total	\$ 3	\$ —	\$ 5	\$ 88	\$ 96	

(1) Includes modifications involving a combination of deferral of amounts due, interest rate relief, or maturity extension.

Three months ended March 31, 2025, by loan type	Deferral of Amounts Due	Interest Rate Relief	Maturity Extension	Combination ⁽¹⁾	Total	Percentage of total carrying value outstanding
(\$ in millions)						
Commercial mortgage loans	\$ —	\$ 38	\$ —	\$ 68	\$ 106	0.41 %
Residential mortgage loans	2	—	—	—	2	0.01 %
Consumer loans	3	—	8	7	18	0.39 %
Total	\$ 5	\$ 38	\$ 8	\$ 75	\$ 126	

(1) Includes modifications involving a combination of deferral of amounts due, interest rate relief, or maturity extension.

All of the commercial mortgage loans that had a combination of modifications had both interest rate relief and maturity extensions. For commercial mortgage loans granted interest rate relief, this relief may involve a change from a floating rate to fixed, a decrease in fixed rate, or a decrease in spread. Interest rate relief provided during the three months ended March 31, 2026 and 2025, was at a weighted average rate of 7.7% and 3.0%, respectively. The maturity extensions for commercial mortgage loans added a weighted-average of 2.9 years and 2.0 years to the life of the loans, for the three months ended March 31, 2026, and 2025, respectively. As of March 31, 2026, the Company has commitments to lend additional funds of \$43 million for the modified commercial mortgage loans disclosed above.

The table below presents the performance status of the loans modified during the twelve months ended March 31, 2026:

Performance status as of March 31, 2026, by loan type	Current	30-59 days past due	60-89 days past due	90 days or more past due or in process of foreclosure	Total
(\$ in millions)					
Commercial mortgage loans	\$ 266	\$ —	\$ —	\$ —	\$ 266
Residential mortgage loans	4	—	—	1	5
Consumer loans	33	8	4	3	48
Total⁽¹⁾	\$ 303	\$ 8	\$ 4	\$ 4	\$ 319

(1) Loans may have been modified more than once during the twelve months period; in this circumstance, the loan is only included once in this table. Modified loans that were subsequently repaid are excluded.

Equity method investments

Real assets of \$1.4 billion as of both March 31, 2026, and December 31, 2025, respectively, and other investments of \$847 million and \$855 million as of March 31, 2026, and December 31, 2025, respectively, are accounted for using the equity method of accounting.

In addition, the Company has investments that would otherwise require the equity method of accounting for which the fair value option has been elected. The carrying amount of real assets and other investments for which the fair value option has been elected was \$749 million and \$2.7 billion, respectively, as of March 31, 2026, and the carrying amount of these investments was \$732 million and \$2.2 billion, respectively, as of December 31, 2025.

The Company's maximum exposure to loss related to equity method investments, including those for which fair value has been elected, is limited to the carrying value of these investments plus unfunded commitments of \$442 million and \$447 million as of March 31, 2026, and December 31, 2025, respectively.

Variable interest entities

The Company has formed certain VIEs to either (i) hold investments, including fixed maturity securities, consumer and other loans, and real assets, or (ii) to conduct certain reinsurance activities with third party commitments. These VIEs issue beneficial interests primarily to the Company's insurance companies and the Company maintains the power to direct the activities of the VIEs that most significantly impact their economic performance and bears the obligation to absorb losses or receive benefits from the VIEs that could potentially be significant. Accordingly, the Company is the primary beneficiary of these VIEs, which are consolidated. Where these VIEs or entities consolidated by these VIEs issue beneficial interests to third-parties, they are reported as non-controlling interests by the Company.

The following table illustrates the Company's consolidated VIE positions:

	March 31, 2026	December 31, 2025
(\$ in millions)		
Assets of consolidated variable interest entities:		
Investments:		
AFS fixed maturity securities, at fair value	\$ 10,664	\$ 11,427
Trading fixed maturity securities, at fair value	464	428
Mortgage and other loan receivables	4,376	4,461
Real assets	14,158	14,203
Other investments	798	631
Cash and cash equivalents	1,696	1,382
Accrued investment income	238	303
Other assets	736	486
Total assets of consolidated variable interest entities	\$ 33,130	\$ 33,321
Liabilities of consolidated variable interest entities:		
Debt	\$ 207	\$ 197
Other liabilities	619	566
Total liabilities of consolidated variable interest entities	\$ 826	\$ 763

The carrying amount and maximum exposure to loss relating to VIEs in which the Company holds a significant variable interest but is not the primary beneficiary and which have not been consolidated were as follows:

	March 31, 2026		December 31, 2025	
	Carrying amount	Maximum exposure to loss ⁽¹⁾	Carrying amount	Maximum exposure to loss ⁽¹⁾
(\$ in millions)				
Real assets	\$ 416	\$ 416	\$ 418	\$ 418
Other investments	3,013	3,013	2,462	2,462
Total	\$ 3,429	\$ 3,429	\$ 2,880	\$ 2,880

- (1) The maximum exposure to loss relating to other investments and renewable energy partnership interests is equal to the carrying amounts. The Company also has unfunded commitments of \$442 million and \$447 million as of March 31, 2026, and December 31, 2025, respectively.

Repurchase agreement transactions

As of March 31, 2026, and December 31, 2025, the Company participated in repurchase agreements with a notional value of \$715 million and \$664 million, respectively. As collateral for these transactions, the Company typically posts AFS fixed maturity securities and/or mortgage and other loan receivables, which are included in investments in the consolidated balance sheets. The gross obligation for repurchase agreements is reported in other liabilities in the consolidated balance sheets.

The carrying value of assets pledged for repurchase agreements by type of collateral and remaining contractual maturity of the repurchase agreements as of March 31, 2026, and December 31, 2025 is presented in the following tables:

As of March 31, 2026	Overnight		<30 Days		30 - 90 Days		>90 Days		Total	
(\$ in millions)										
Residential mortgage loans	\$	—	\$	5	\$	211	\$	550	\$	766
Total assets pledged	\$	—	\$	5	\$	211	\$	550	\$	766

As of December 31, 2025	Overnight		<30 Days		30 - 90 Days		>90 Days		Total	
(\$ in millions)										
Residential mortgage loans	\$	—	\$	9	\$	312	\$	391	\$	712
Total assets pledged	\$	—	\$	9	\$	312	\$	391	\$	712

Other pledges and restrictions

Certain of the Company's subsidiaries are members of regional banks in the FHLB system and such membership requires the members to own stock in these FHLBs. We own an aggregate of \$154 million and \$122 million (accounted for at cost basis) of stock in FHLBs as of March 31, 2026, and December 31, 2025, respectively. In addition, the Company's insurance subsidiaries have entered into funding agreements with the FHLB, which require that the Company pledge eligible assets, such as fixed maturity securities and mortgage loans, as collateral. Assets pledged as collateral for these funding agreements had a carrying value of \$8.1 billion and \$7.1 billion as of March 31, 2026, and December 31, 2025, respectively.

The capital stock of one of our equity method investments has been pledged as collateral security for the due payment and performance of the debt obligations of the investee. Our investment subject to this pledge had a carrying value of \$850 million and \$874 million as of March 31, 2026 and December 31, 2025, respectively.

Investments held for sale

Real assets includes \$2.3 billion of assets held for sale as of March 31, 2026; the estimated fair value of these assets, less costs to sell, exceeds their carrying value.

Insurance – statutory deposits

As of March 31, 2026, and December 31, 2025, the carrying value of the assets on deposit with various state and U.S. governmental authorities were \$143 million and \$145 million, respectively.

Net investment income

Net investment income is comprised primarily of (i) interest income, including amortization of premiums and accretion of discounts, (ii) dividend income from common and preferred stock, (iii) earnings from investments accounted for under equity method accounting, and (iv) lease income on real assets.

The components of net investment income were as follows:

	Three months ended	
	March 31,	March 31,
	2026	2025
(\$ in millions)		
Fixed maturity securities	\$ 1,781	\$ 1,517
Mortgage and other loan receivables	780	772
Real assets	263	257
Income assumed from funds withheld receivable at interest	17	19
Income ceded to funds withheld payable at interest	(689)	(620)
Policy loans	21	22
Short-term and other investment income	157	135
Total investment income⁽¹⁾	\$ 2,330	\$ 2,102
Less investment expenses:		
Investment management and administration ⁽²⁾	381	328
Real asset depreciation and maintenance	40	64
Interest expense on derivative collateral and repurchase agreements	31	24
Net investment income	\$ 1,878	\$ 1,686

(1) Includes income from related parties of \$123 million and \$110 million for the three months ended March 31, 2026, and 2025, respectively.

(2) Includes investment management fees paid to KKR, a related party, of \$176 million and \$160 million for the three months ended March 31, 2026, and 2025, respectively.

Net investment-related gains (losses)

Net investment-related gains (losses) were as follows:

	Three months ended	
	March 31,	March 31,
	2026	2025
(\$ in millions)		
Realized gains (losses) on available-for-sale fixed maturity securities	\$ (98)	\$ (1,117)
Credit loss allowances on available-for-sale securities	(55)	(48)
Credit loss allowances on mortgage and other loan receivables	(178)	(37)
Credit loss allowances on unfunded commitments	4	—
Unrealized gains (losses) on fixed maturity securities classified as trading ⁽¹⁾	(367)	266
Unrealized gains (losses) on other investments recognized under the fair-value option and equity investments	4	29
Unrealized gains (losses) on real assets	(12)	19
Realized gains (losses) on real assets	17	11
Net gains (losses) on derivative instruments	(34)	(660)
Realized gains (losses) on funds withheld at interest, payable	29	76
Realized gains (losses) on funds withheld at interest, receivable	(2)	(50)
Foreign exchange gains (losses) on non-USD denominated investments	(50)	76
Other realized gains (losses)	71	(8)
Net investment-related gains (losses)	\$ (671)	\$ (1,443)

(1) Includes gains (losses) from related party KKR trading corporate fixed maturity securities of \$(86) million and \$(6) million for the three months ended March 31, 2026, and 2025, respectively.

Proceeds and gross gains and losses from voluntary sales

The proceeds from voluntary sales and the gross gains and losses on those sales of available-for-sale ("AFS") fixed maturity securities were as follows:

	Three months ended	
	March 31,	March 31,
	2026	2025
(\$ in millions)		
AFS fixed maturity securities:		
Proceeds from voluntary sales	\$ 8,629	\$ 12,137
Gross gains	\$ 80	\$ 18
Gross losses	\$ (171)	\$ (1,127)

4. Derivative instruments

The Company holds derivative instruments that are primarily used in its hedge program. The Company has established a hedge program that seeks to mitigate economic impacts primarily from interest rate and equity price movements, while taking into consideration accounting and capital impacts.

The Company hedges interest rate and equity market risks associated with its insurance liabilities including fixed-indexed annuities, indexed universal life policies, variable annuity policies, and variable universal life policies, among others. For fixed-indexed annuities and indexed universal life policies, the Company generally seeks to use static hedges to offset the exposure primarily created by changes in its

embedded derivative balances. The Company generally purchases options which replicate the crediting rate strategies, often in the form of call spreads. Call spreads are the purchase of a call option matched by the sale of a different call option. For variable annuities and variable universal life policies, the Company generally seeks to dynamically hedge its exposure to changes in the value of the guarantee it provides to policyholders. Doing so requires the active trading of several financial instruments to respond to changes in market conditions. In addition, the Company enters into inflation swaps to manage inflation risk associated with inflation-indexed preneed policies.

In the context of specific reinsurance transactions in the institutional channel or acquisitions, the Company may also enter into hedges which are designed to limit short-term market risks to the economic value of the target assets. From time to time, the Company also enters into hedges designed to mitigate interest rate and credit risk in investment income, interest expense, and fair value of assets and liabilities. In addition, the Company enters into currency swaps and forwards to manage any foreign exchange rate risks that may arise from investments and policy liabilities denominated in foreign currencies.

The Company attempts to mitigate the risk of loss due to ineffectiveness under these derivative investments through a regular monitoring process which evaluates the program's effectiveness. Management monitors the Company's derivative activities by reviewing portfolio activities and risk levels. Management also oversees all derivative transactions to ensure that the types of transactions entered into and the results obtained from those transactions are consistent with both the Company's risk management strategy and the Company's policies and procedures.

The restricted cash which was held in connection with open derivative transactions with exchange brokers was \$43 million and \$50 million as of March 31, 2026, and December 31, 2025, respectively.

The Company also has embedded derivatives related to reinsurance contracts that are accounted for on a modified coinsurance and funds withheld basis. An embedded derivative exists because the arrangement exposes the reinsurer to third-party credit risk. These embedded derivatives are included in funds withheld receivable and payable at interest in the consolidated balance sheets.

Credit Risk

The Company may be exposed to credit-related losses in the event of nonperformance by its counterparties to derivatives. Generally, the current credit exposure of the Company's derivatives is limited to the positive fair value of derivatives less any collateral received from the counterparty.

The Company manages the credit risk on its derivatives by entering into derivative transactions with highly rated financial institutions and other creditworthy counterparties and, where feasible, by trading through central clearing counterparties. The Company further manages its credit risk on derivatives via the use of master netting agreements, which require the daily posting of collateral by the party in a liability position. Counterparty credit exposure and collateral values are monitored regularly and measured against counterparty exposure limits. The provisions of derivative transactions may allow for the termination and settlement of a transaction if there is a downgrade to the Company's financial strength ratings below a specified level.

The fair value and notional value of the derivative assets and liabilities were as follows:

	March 31, 2026					
	Gross Notional	Fair Value		Liabilities		
		Assets				
(\$ in millions)						
Derivatives designated as hedge accounting instruments:						
Interest rate contracts	\$	14,241	\$	93	\$	336
Foreign currency contracts		9,011		94		131
Total derivatives designated as hedge accounting instruments	\$	23,252	\$	187	\$	467
Derivatives not designated as hedge accounting instruments:						
Interest rate contracts	\$	15,571	\$	87	\$	277
Equity market contracts		41,906		2,208		137
Foreign currency contracts		5,730		63		172
Other contracts		3		2		—
Total derivatives not designated as hedge accounting instruments	\$	63,210	\$	2,360	\$	586
Counterparty netting ⁽²⁾		—		(596)		(596)
Cash collateral		—		(1,580)		(63)
Total derivatives after collateral ⁽¹⁾	\$	86,462	\$	371	\$	394

(1) Excludes embedded derivatives. The fair value of these embedded derivatives related to assets was \$60 million and the fair value of these embedded derivatives related to liabilities was \$4.9 billion.

(2) Represents netting of derivative exposures covered by qualifying master netting agreements.

	December 31, 2025					
	Fair Value					
	Gross Notional	Assets	Liabilities			
(\$ in millions)						
Derivatives designated as hedge accounting instruments:						
Interest rate contracts	\$	13,456	\$	74	\$	317
Foreign currency contracts		6,075		27		112
Total derivatives designated as hedge accounting instruments	\$	19,531	\$	101	\$	429
Derivatives not designated as hedge accounting instruments:						
Interest rate contracts	\$	17,525	\$	311	\$	322
Equity market contracts		41,859		2,676		118
Foreign currency contracts		4,326		32		224
Other contracts		4		9		5
Total derivatives not designated as hedge accounting instruments	\$	63,714	\$	3,028	\$	669
Counterparty netting ⁽²⁾		—		(615)		(616)
Cash collateral		—		(2,208)		(46)
Total derivatives after collateral ⁽¹⁾	\$	83,245	\$	306	\$	436

(1) Excludes embedded derivatives. The fair value of these embedded derivatives related to assets was \$79 million and the fair value of these embedded derivatives related to liabilities was \$5.6 billion.

(2) Represents netting of derivative exposures covered by qualifying master netting agreements.

Derivatives designated as accounting hedges

Where the Company has derivative instruments that are designated and qualify as accounting hedges, these derivative instruments receive hedge accounting.

Fair value hedges

The Company has designated foreign exchange derivative contracts, including forwards and swaps, to hedge the foreign currency risk associated with foreign currency-denominated bonds in fair value hedges. These foreign currency-denominated bonds are accounted for as AFS fixed maturity securities. Changes in the fair value of the hedged AFS fixed maturity securities due to changes in spot exchange rates are reclassified from AOCI to earnings, which offsets the earnings impact of the spot changes of the foreign exchange derivative contracts, both of which are recognized within investment-related gains (losses). The effectiveness of these hedges is assessed using the spot method. Changes in the fair value of the foreign exchange derivative contracts related to changes in the spot-forward difference are excluded from the assessment of hedge effectiveness and are deferred in AOCI and recognized in earnings using a systematic and rational method over the life of the foreign exchange derivative contracts. The amortized cost of the AFS fixed maturity securities in qualifying foreign exchange fair value hedges was \$4.9 billion and \$3.7 billion as of March 31, 2026, and December 31, 2025, respectively.

Global Atlantic has designated foreign exchange swaps to hedge the foreign currency risk associated with certain policy liabilities in fair value hedges. Changes in the fair value of the hedged policy liabilities due to changes in spot exchange rates are recognized in earnings and are offset by the earnings impact of the spot changes of the foreign exchange swaps, both of which are recognized within net policy benefits and claims. The effectiveness of these hedges is assessed using the spot method. Changes in the fair value of the foreign exchange swaps related to changes in the spot-forward difference are excluded from the assessment of hedge effectiveness and are deferred in AOCI and recognized in earnings using a systematic and rational method over the life of the foreign exchange swaps. The carrying value of the policy liabilities in qualifying foreign exchange fair value hedges was \$102 million and nil as of March 31, 2026 and December 31, 2025, respectively.

The Company has designated interest rate swaps to hedge the interest rate risk associated with certain debt and policy liabilities. These fair value hedges generally qualify for the shortcut method of assessing hedge effectiveness. The following table presents the financial statement classification, carrying amount, and cumulative fair value hedging adjustments for qualifying hedged debt and policy liabilities:

	Carrying Amount of Hedged Liabilities		Cumulative Amount of Fair Value Hedging Adjustments Included in the Carrying Amount of Hedged Liabilities ⁽¹⁾	
	March 31, 2026	December 31, 2025	March 31, 2026	December 31, 2025
(\$ in millions)				
Debt	\$ 3,557	\$ 3,572	\$ (139)	\$ (124)
Policy liabilities	4,569	3,647	(102)	(99)

(1) Includes \$146 million and \$155 million of hedging adjustments on discontinued hedging relationships as of March 31, 2026, and December 31, 2025, respectively.

Cash flow hedges

The Company has designated bond forwards to hedge the interest rate risk associated with the planned purchase of AFS fixed maturity securities in cash flow hedges. These arrangements are hedging purchases through January 2036 and are expected to affect earnings until 2057. Regression analysis is used to assess the effectiveness of these hedges.

As of March 31, 2026, and December 31, 2025, there was a cumulative loss of \$(201) million and \$(214) million, respectively, on the currently designated bond forwards recorded in accumulated other comprehensive income (loss). Amounts deferred in accumulated other comprehensive income (loss) are reclassified to net investment income following the qualifying purchases of AFS securities, as an adjustment to the yield earned over the life of the purchased securities, using the effective interest method.

The Company has designated interest rate swaps to hedge the interest rate risk associated with floating rate investments, including AFS fixed maturity securities and commercial mortgage loans. Regression analysis is used to assess the effectiveness of these hedges.

As of March 31, 2026 and December 31, 2025, there was a cumulative gain (loss) of \$(37) million and \$(22) million on the currently designated interest rate swaps recorded in accumulated other comprehensive loss, respectively. Amounts deferred in accumulated other comprehensive loss are reclassified to net investment income in the same period during which the hedged investments affect earnings.

The Company has designated foreign exchange swaps to hedge the foreign exchange risk associated with certain policy liabilities in cash flow hedges. The critical terms of the swaps match those of the hedged liabilities, such that the respective hedging relationship is expected to be perfectly effective (pursuant to ASC 815-20-25-84).

As of March 31, 2026, there was a cumulative gain (loss) of \$(32) million on the currently designated foreign exchange swaps recorded in accumulated other comprehensive income (loss). Amounts deferred in accumulated other comprehensive income (loss) are reclassified to net policy benefits and claims in the same period during which the hedged policy liabilities affect earnings due to changes in spot foreign exchange rates. The amount reclassified from accumulated other comprehensive income (loss) for the swap designated in the hedge comprises changes in its fair value due to changes in spot exchange rates and an allocated portion of its initial spot-forward difference.

For all cash flow hedges, the Company estimates that the amount of gains/losses in accumulated other comprehensive income (loss) to be reclassified into earnings in the next 12 months will not be material.

Net investment hedges

The Company has designated cross currency swaps to hedge the foreign currency risk associated with certain foreign currency-denominated equity method investments in net investment hedges. The effectiveness of these hedges is assessed based on changes in spot rates.

Changes in the fair value of the swaps are recognized in other comprehensive income (OCI), consistent with the translation adjustment for the hedged investment. The component comprising the difference between forward rates and spot rates is amortized to net investment income over the life of the swaps. As of March 31, 2026 and December 31, 2025, the cumulative foreign currency translation gain (loss) recorded in accumulated other comprehensive income (AOCI) related to net investment hedges was \$(4) million and \$(14) million, respectively.

Derivative results

The following table presents the financial statement classification and amount of gains (losses) recognized on derivative instruments and related hedged items, where applicable:

	Three months ended March 31, 2026

Derivative assets (excluding embedded derivatives)	\$ 3,129	\$ (2,823)	\$ 306	\$ (511)	\$ (205)
Derivative liabilities (excluding embedded derivatives)	\$ 1,099	\$ (663)	\$ 436	\$ 724	\$ (288)

(1) Represents netting of derivative exposures covered by qualifying master netting agreements.

5. Fair value disclosure of financial instruments

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date ("the exit price"). The best evidence of fair value is a quoted price in an active market. If listed prices or quotations are not available, fair value is determined by reference to prices of similar instruments and quoted prices or recent prices in less active markets.

U.S. GAAP establishes a three-level valuation hierarchy based upon observable and non-observable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. The fair value hierarchy prioritizes inputs to the valuation techniques used to measure fair value, giving the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. A financial instrument's level in the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement of the financial instrument. The three levels of the fair value hierarchy are described below:

Basis of fair value measurement

Level 1: Unadjusted quoted prices in active markets to which the Company had access as of the measurement date for identical, unrestricted assets and liabilities.

Level 2: Inputs to valuation techniques are observable either directly or indirectly through quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable; and

Level 3: Model-derived where one or more inputs to the valuation techniques are significant and unobservable.

The measurement of Level 3 financial instrument fair values uses unobservable inputs that are based on management judgment and the internal determination of assumptions that market participants would use in valuing them. Valuation subjectivity increases when markets are less liquid due to the lack of more transparent market-based inputs, which may increase the potential that estimated fair values are not reflective of the price at which an actual transaction would occur.

The following tables represent the Company's hierarchy for its assets and liabilities measured and reported at fair value by the fair value hierarchy on a recurring basis:

As of March 31, 2026	Level 1		Level 2		Level 3		Total
(\$ in millions)							
Assets:							
AFS fixed maturity securities:							
U.S. government and agencies	\$	—	\$	387	\$	—	\$ 387

Total liabilities at fair value	\$	—	\$	394	\$	7,555	\$ 7,949

(1) Includes related party KKR AFS corporate fixed maturity securities of \$4.7 billion.

(2) Includes related party KKR AFS structured securities of \$856.3 million.

(3) Includes related party KKR trading corporate fixed maturity securities of \$841 million.

(4) Includes related party KKR trading structured securities of \$736.2 million.

(5) Real assets and other investments excluded from the fair value hierarchy table include certain funds for which fair value is measured at net asset value per share as a practical expedient. As of March 31, 2026, the fair value of these real assets and other investments were \$18 million and \$2.2 billion, respectively. These fund investments have strategies primarily focused on real assets (primarily real estate) or other investments and are subject to certain restrictions on redemption. As of March 31, 2026, there was \$1 million of unfunded commitments associated with both real assets and other investments.

(6) Includes market risk benefit of \$1.4 billion.

(7) Includes netting of derivative exposures covered by qualifying master netting agreements.

(5) Real assets and other investments excluded from the fair value hierarchy table include certain funds for which fair value is measured at net asset value per share as a practical expedient. As of December 31, 2025, the fair value of these real assets and other investments were \$26 million and \$2.1 billion, respectively. These fund investments have strategies primarily focused on real assets (primarily real estate) or other investments and are subject to certain restrictions on redemption. As of December 31, 2025, there were \$1 million of unfunded commitments associated with both real assets and other investments.

(6) Includes market risk benefit of \$1.3 billion.

(7) Includes netting of derivative exposures covered by qualifying master netting agreements.

Fair value techniques and inputs

The following is a description of the valuation techniques and inputs used for instruments carried at fair value. The observability of the inputs used in the valuation determines the appropriate level in the fair value hierarchy for the respective asset or liability. Also refer to Note 2—"Significant accounting policies" for additional information regarding valuation techniques used for the respective reported balances.

Investments

Investments in U.S. Treasury, government and agency securities, foreign government securities, short-term money market securities, and mutual funds held in separate accounts are valued using quoted market prices for identical unrestricted instruments in active markets. Investments such as fixed maturity securities for which quoted market prices from active markets are not available are priced using observable inputs, which can be verified to quoted prices, recent trading activity for identical or similar instruments, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. Consideration is given to the nature of the quotations and the relationship of recent market activity to the prices provided from alternative pricing sources. Investments having one or more significant valuation inputs that are not observable are initially valued at transaction price, which is

considered to be the best initial estimate of fair value. Subsequently, the Company uses other methodologies to determine fair value, which vary based on the type of investment.

Valuation inputs and assumptions are changed when corroborated by substantive observable evidence, including values realized on sales.

Derivative instruments

Derivative instruments such as exchange-traded futures and options are valued at their quoted market price. Most of the over-the-counter derivative instruments used by the Company are those for which all significant valuation inputs are corroborated by market evidence. These derivative instruments are principally valued using an income approach. The Company calculates the fair value of derivative assets by discounting future cash flows at a rate that incorporates counterparty credit spreads and the fair value of derivative liabilities by discounting future cash flows at a rate that incorporates the Company's own credit spreads. When appropriate, valuations are adjusted for various factors such as liquidity, bid/offer spreads, and credit considerations. Such adjustments are generally based on available market evidence.

Valuations for non-option based interest rate derivatives are based on present value techniques, which utilize significant inputs that may include the swap yield curve, LIBOR basis curves, and repurchase rates. Valuations for option based interest rate derivatives are based on option pricing models, which utilize significant inputs that may include the swap yield curve, LIBOR basis curves, and interest rate volatility.

Prices for foreign currency derivatives based on the exchange rates of leading industrialized nations, including those with longer tenors, are generally observable. The valuation of other derivative instruments including credit derivatives and equity market derivatives have significant unobservable inputs, such as equity volatility inputs for options that are very long dated, and are principally valued using an income approach.

Funds withheld at interest, reinsurance assets, and policy liabilities

The funds withheld receivable at interest carried at fair value is primarily valued based on the fair value of the underlying investments, which have quoted prices or other observable inputs to pricing. A portion of the funds withheld receivable at interest carried at fair value represents embedded derivatives and is valued using present value techniques that consider inputs including contractholder persistency and contract duration. Reinsurance recoverables carried at fair value are valued using present value techniques that consider inputs including mortality and surrender rates for the associated policies, as well as estimates of policy expenses and the cost of capital held in support of the related closed block policy liabilities.

Policy liabilities carried at fair value are valued using present value techniques that discount estimated liability cash flows at a rate that reflects the riskiness of those cash flows and also consider policyholder behavior (lapse rates, surrender rates and mortality). Market risk benefits liability is valued at fair value using a non-option and option valuation approach based on current net amounts at risk, market data, Company experience, and other factors. Closed block policy liabilities carried at fair value are valued using present value techniques that consider inputs including mortality and surrender rates for the respective policies, as well as estimates of policy expenses and the cost of capital held in support of the liabilities. The funds withheld payable at interest carried at fair value represents embedded derivatives and is valued based on the change in the fair value of the assets supporting the payable. Other embedded derivative liabilities are related to our fixed-indexed annuity and interest-sensitive life products, which contain equity-indexed features. We calculate the embedded derivative liabilities as the present value of future projected benefits in excess of the projected guaranteed benefits, using an option budget as the indexed account value growth rate and considering an adjustment to reflect the risk of nonperformance on our obligation and inputs such as projected withdrawal and surrender activity, and

mortality. We calculate instrument-specific credit risk using a blend of observable peer holding company credit spreads, adjusted to reflect the claims paying ability of our insurance entities, as well as an adjustment to reflect the priority of policy claims. See details in the table below.

Fair value of assets and liabilities

Significant unobservable inputs

The tables below present the ranges of significant unobservable inputs used to value the Company's Level 3 financial assets and liabilities, and includes only those items for which information is reasonably available, such as data from internal determinations of fair value. These ranges represent the significant unobservable inputs that were used in the valuation of each type of financial asset and liability. Weighted averages in the tables below are calculated by weighting each input by the relative fair value of the respective financial instruments. The ranges and weighted averages of these inputs are not representative of the appropriate inputs to use when calculating the fair value of any one financial asset or liability. Accordingly, the ranges of inputs presented below do not represent uncertainty in, or possible ranges of, fair value measurements of the Company's Level 3 financial assets and liabilities as of March 31, 2026, and December 31, 2025. Also refer to Note 2—"Significant accounting policies" for additional information on valuation techniques used for the respective reported balances.

As of March 31, 2026				
Level 3 assets ⁽¹⁾	Level 3 assets (\$ in millions)	Valuation techniques and significant unobservable inputs	Range of significant unobservable inputs (weighted average, or "WA")	Impact of an increase in the input on fair value
Corporate fixed maturity securities (AFS and trading)	\$ 24,529	Discounted cash flows - discount spread	0.3% - 5.1% (WA 2.7%)	Decrease
Structured securities (AFS and trading)	6,024	Discounted cash flows - discount spread	1.3% - 5.2% (WA 2.5%)	Decrease
Mortgage and other loan receivables	12,700	Discounted cash flows - discount spread	0.5% - 4.4% (WA 2.8%)	Decrease
Real assets	8,758	Discounted cash flows - discount rate	6.5% - 8.2% (WA 7.2%)	Decrease
		Discounted cash flows - terminal capitalization rate	5.0% - 7.3% (WA 5.8%)	Decrease
Reinsurance recoverable	932	Present value of expenses paid from the open block plus the cost of capital held in support of the liabilities.	The average expense assumption is between \$8.2 and \$78.0 per policy (WA \$17.5), increased by inflation. The annual inflation rate was increased by 2.5%.	Increase
		Unobservable inputs are a market participant's view of the expenses, a risk margin on the uncertainty of the level of expenses, and a cost of capital on the capital held in support of the liabilities.	Expense risk margin: 9.4%	Decrease
			Cost of Capital: 3.7% - 13.8% (WA 9.8%)	Increase
		Discounted cash flow - mortality rate	5.7%	Increase
		Discounted cash flow - surrender rate	2.0%	Increase

(1) The funds withheld receivable at interest has been excluded from the above table. As discussed in Note 8 – Reinsurance, the funds withheld receivable at interest is created through funds withheld contracts. The assets supporting these receivables were held in

trusts for the benefit of the Company. Accordingly, the unobservable inputs utilized in the valuation of the embedded derivative are a component of the invested assets supporting the funds withheld reinsurance agreements.

As of December 31, 2025				
Level 3 assets ⁽¹⁾	Level 3 assets (\$ in millions)	Valuation techniques and significant unobservable inputs	Range of significant unobservable inputs (WA)	Impact of an increase in the input on fair value
Corporate fixed maturity securities (AFS and trading)	\$ 22,132	Discounted cash flows - discount spread	0.3% - 5.2% (WA 2.7%)	Decrease
Structured securities (AFS and trading)	5,419	Discounted cash flows - discount spread	1.4% - 5.2% (WA 2.2%)	Decrease
Mortgage and other loan receivables	11,155	Discounted cash flows - discount spread	0.6% - 4.5% (WA 2.6%)	Decrease
Real assets	8,697	Discounted cash flows - discount rate	6.5% - 8.2% (WA 7.2%)	Decrease
		Discounted cash flows -terminal capitalization rate	5.0% - 7.3% (WA 5.8%)	Decrease
Reinsurance recoverable	934	Present value of expenses paid from the open block plus the cost of capital held in support of the liabilities.	The average expense assumption is between \$8.2 and \$78.0 per policy (WA \$17.3), increased by inflation. The annual inflation rate was increased by 2.5%.	Increase
		Unobservable inputs are a market participant's view of the expenses, a risk margin on the uncertainty of the level of expenses, and a cost of capital on the capital held in support of the liabilities.	Expense risk margin: 9.4%	Decrease
			Cost of Capital: 3.7% - 13.9% (WA 9.5%)	Increase
		Discounted cash flow - mortality rate	5.7%	Increase
		Discounted cash flow - surrender rate	2.0%	Increase

- (1) The funds withheld receivable at interest has been excluded from the above table. As discussed in Note 8 – Reinsurance, the funds withheld receivable at interest is created through funds withheld contracts. The assets supporting these receivables were held in trusts for the benefit of the Company. Accordingly, the unobservable inputs utilized in the valuation of the embedded derivative are a component of the invested assets supporting the funds withheld reinsurance agreements.

- (1) The fair value of the embedded derivative component of the funds withheld payable at interest has been excluded from the above table. The investments supporting the funds withheld payable at interest balance are held in a trust by the Company. Accordingly, the unobservable inputs utilized in the valuation of the embedded derivative are a component of the investments supporting the reinsurance cession agreements.

Transfers between levels

Overall, transfers into and out of Level 3 are attributable to a change in the observability of inputs. Assets and liabilities are transferred into Level 3 when a significant input cannot be corroborated with market observable data. This occurs when market activity decreases significantly and underlying inputs cannot be observed, current prices are not available, and when there are significant variances in quoted prices, thereby affecting transparency. Assets and liabilities are transferred out of Level 3 when circumstances change such that a significant input can be corroborated with market observable data. This may be due to a significant increase in market activity, a specific event, or one or more significant input(s) becoming observable.

The tables below set forth a summary of changes in the fair value of the Company's Level 3 assets and liabilities for the three months ended March 31, 2026, and 2025. The tables reflect gains and losses for all assets and liabilities categorized as Level 3 for the three months ended March 31, 2026, and 2025:

(1) Includes related party KKR AFS corporate fixed maturity securities with net purchases of \$363 million.

- (2) Includes related party KKR trading corporate fixed maturity securities with net purchases of \$39 million.
- (3) Includes related party KKR AFS structured securities with net purchases of \$(2) million.
- (4) Includes related party KKR trading structured securities with net purchases of \$321 million.

Fair-value option

The following table summarizes financial instruments for which the fair value option has been elected:

	March 31, 2026	December 31, 2025
(\$ in millions)		
Assets		
Fixed maturity securities	\$ 957	\$ 689
Mortgage and other loan receivables	12,700	11,155
Real assets	749	732
Other investments	3,018	2,458
Reinsurance recoverable	932	934
Total assets	\$ 18,356	\$ 15,968
Liabilities		
Policy liabilities	\$ 1,234	\$ 1,243
Total liabilities	\$ 1,234	\$ 1,243

The following table summarizes the net realized and unrealized gains and losses recognized on financial instruments for which the fair value option has been elected:

	Three months ended			Three months ended		
	March 31,			March 31,		
	2026			2025		
	Net Realized Gains (Losses)	Net Unrealized Gains (Losses)	Total	Net Realized Gains (Losses)	Net Unrealized Gains (Losses)	Total

6. Insurance intangibles assets and liabilities

The following reflects the reconciliation of the components of insurance intangibles to the total balance reported in the consolidated balance sheets as of March 31, 2026, and December 31, 2025:

	March 31,	December 31,
	2026	2025
(\$ in millions)		
Deferred acquisition costs, or "DAC"	\$ 2,457	\$ 2,366
Value of business acquired	1,060	1,080
Cost-of-reinsurance intangibles	2,260	2,309
Deferred Sales Inducements, or "DSI"	152	150
Total insurance intangible assets	\$ 5,929	\$ 5,905

Deferred acquisition costs

The following tables reflect the deferred acquisition costs roll-forward by product category for the three months ended March 31, 2026, and 2025:

	Three months ended March 31, 2026				
(\$ in millions)	Fixed_rate_an nuities	Fixed_indexed _annuities	Interest_sensiti ve_life	Other	Total
Balance, as of the beginning of the period	\$ 491	\$ 1,052	\$ 130	\$ 693	\$ 2,366
Capitalizations	13	74	2	96	185
Amortization expense	(32)	(44)	(2)	(16)	(94)
Balance, as of the end of the period	\$ 472	\$ 1,082	\$ 130	\$ 773	\$ 2,457

	Three months ended March 31, 2025				
(\$ in millions)	Fixed_rate_an nuities	Fixed_indexed _annuities	Interest_sensiti ve_life	Other	Total
Balance, as of the beginning of the period	\$ 464	\$ 787	\$ 131	\$ 349	\$ 1,731
Capitalizations	58	79	2	91	230
Amortization expense	(30)	(33)	(2)	(9)	(74)
Balance, as of the end of the period	\$ 492	\$ 833	\$ 131	\$ 431	\$ 1,887

Value of business acquired

The following tables reflect the value of business acquired, or “VOBA” asset roll-forward by product category for the three months ended March 31, 2026, and 2025:

(\$ in millions)	Three months ended March 31, 2026					
	Fixed_rate_an nuities	Fixed_indexed _annuities	Variable_annu ities	Interest_sensit ive_life	Other	Total
Balance, as of the beginning of the period	\$ 38	\$ 535	\$ 205	\$ 236	\$ 66	\$ 1,080
Amortization expense	(1)	(10)	(5)	(3)	(1)	(20)
Balance, as of the end of the period	\$ 37	\$ 525	\$ 200	\$ 233	\$ 65	\$ 1,060

(\$ in millions)	Three months ended March 31, 2025					
	Fixed_rate_an nuities	Fixed_indexed _annuities	Variable_annu ities	Interest_sensit ive_life	Other	Total
Balance, as of the beginning of the period	\$ 41	\$ 578	\$ 224	\$ 249	\$ 73	\$ 1,165
Amortization expense	(1)	(11)	(5)	(3)	(1)	(21)
Balance, as of the end of the period	\$ 40	\$ 567	\$ 219	\$ 246	\$ 72	\$ 1,144

The following tables reflect the negative value of business acquired, or “negative VOBA” liability roll-forward by product category for the three months ended March 31, 2026, and 2025:

(\$ in millions)	Three months ended March 31, 2026					
	Fixed_rate_an nuities	Fixed_indexed _annuities	Variable_annu ities	Interest_sensit ive_life	Other	Total
Balance, as of the beginning of the period	\$ 32	\$ 54	\$ 79	\$ 359	\$ 154	\$ 678
Amortization expense	(2)	(4)	(2)	(7)	(4)	(19)
Balance, as of the end of the period	\$ 30	\$ 50	\$ 77	\$ 352	\$ 150	\$ 659

(\$ in millions)	Three months ended March 31, 2025					
	Fixed_rate_an nuities	Fixed_indexed _annuities	Variable_annu ities	Interest_sensit ive_life	Other	Total
Balance, as of the beginning of the period	\$ 44	\$ 76	\$ 86	\$ 393	\$ 167	\$ 766
Amortization expense	(4)	(6)	(1)	(8)	(4)	(23)
Balance, as of the end of the period	\$ 40	\$ 70	\$ 85	\$ 385	\$ 163	\$ 743

Deferred Sales Inducements

The following tables reflect the deferred sales inducements roll-forward by product category for the three months ended March 31, 2026:

	Three months ended March 31, 2026	
	Fixed indexed annuities	
(\$ in millions)		
Balance, as of the beginning of the period	\$	150
Deferral		8
Amortized to income during the period		(6)
Balance, as of the end of the period	\$	152

Unearned revenue reserves and unearned front-end loads

The following tables reflect unearned revenue reserves and unearned front-end loads liability roll-forward by product category for the three months ended March 31, 2026, and 2025:

	Three months ended March 31,	
	2026	2025
	Preneed	
(\$ in millions)		
Balance, as of the beginning of the period	\$ 278	\$ 230
Deferral	17	17
Amortized to income during the period	(6)	(5)
Balance, as of the end of the period	\$ 289	\$ 242

7. Policy liabilities

The following reflects the reconciliation of the components of policy liabilities to the total balance reported in the consolidated balance sheets as of March 31, 2026, and December 31, 2025:

	March 31,		December 31,	
	2026		2025	
(\$ in millions)				
Policyholders' account balances	\$	150,983	\$	151,485
Liability for future policy benefits		30,459		30,646
Additional liability for annuitization, death, or other insurance benefits		8,018		7,924
Market risk benefit liability		1,404		1,350
Other policy-related liabilities ⁽¹⁾		13,863		14,154
Total policy liabilities	\$	204,727	\$	205,559

- (1) Other policy-related liabilities as of March 31, 2026, and December 31, 2025 primarily consist of embedded derivatives associated with contractholder deposit funds (\$7.5 billion and \$7.8 billion, respectively), cost-of-reinsurance liabilities (\$3.1 billion and \$3.1 billion, respectively), policy liabilities accounted under a fair value option (\$1.1 billion and \$1.1 billion, respectively), negative VOBA (\$660 million and \$678 million, respectively) and outstanding claims (\$387 million and \$356 million, respectively).

Policyholders' account balances

The following reflects the policyholders' account balances roll-forward for the three months ended March 31, 2026, and 2025, and the policyholders' account balances weighted average interest rates, net amount at risk, and cash surrender value as of those dates:

(\$ in millions)	Three months ended March 31, 2026					
	Fixed rate annuities	Fixed indexed annuities	Interest sensitive life	Funding agreements	Other ⁽¹⁾	Total
Balance as of beginning of period	\$ 68,826	\$ 37,019	\$ 21,470	\$ 12,244	\$ 11,926	\$ 151,485
Issuances and premiums received	1,280	1,135	265	2,729	150	5,559
Benefit payments, surrenders, and withdrawals	(2,363)	(1,338)	(381)	(2,764)	(327)	(7,173)
Interest ⁽²⁾	747	277	176	118	107	1,425
Other activity ⁽³⁾	(71)	4	(222)	(44)	20	(313)
Balance as of end of period	\$ 68,419	\$ 37,097	\$ 21,308	\$ 12,283	\$ 11,876	\$ 150,983
Less: reinsurance recoverable	(13,233)	(3,127)	(7,252)	(1,501)	(4,937)	(30,050)
Balance as of end of period, net of reinsurance recoverable	\$ 55,186	\$ 33,970	\$ 14,056	\$ 10,782	\$ 6,939	\$ 120,933
Average interest rate	4.48 %	2.99 %	3.30 %	4.35 %	4.19 %	3.90 %
Net amount at risk, gross of reinsurance ⁽⁴⁾	\$ —	\$ —	\$ 103,339	\$ —	\$ 1,148	\$ 104,487
Cash surrender value ⁽⁵⁾	\$ 52,279	\$ 38,926	\$ 13,577	\$ —	\$ 4,264	\$ 109,046

(1) "Other" consists of activity related to payout annuities without life contingencies, preneed, variable annuities, and life products.

(2) Interest includes interest credited to policyholders' account values, and interest accreted in other components of the policyholder account balance, including investment-type contract values, host amounts for contractholder deposits with embedded derivatives, funding agreements, and other associated reserves.

(3) "Other activity" includes policy charges, fees and commissions, transfers, assumption changes, fair value changes, and the impact of hedge fair value adjustments.

(4) Net amount at risk represents the difference between the face value of the insurance policy and the reserve accumulated under that same policy.

(5) Cash surrender values are reported net of any applicable surrender charges, net of reinsurance.

(\$ in millions)	Three months ended March 31, 2025					
	Fixed rate annuities	Fixed indexed annuities	Interest sensitive life	Funding agreements	Other ⁽¹⁾	Total
Balance as of beginning of period	\$ 65,087	\$ 33,719	\$ 22,175	\$ 7,157	\$ 9,744	\$ 137,882
Issuances and premiums received	3,189	1,520	297	1,168	84	6,258
Benefit payments, surrenders, and withdrawals	(2,507)	(1,117)	(475)	(398)	(346)	(4,843)
Interest ⁽²⁾	661	233	182	82	87	1,245
Other activity ⁽³⁾	(69)	2	(209)	49	27	(200)
Balance as of end of period	\$ 66,361	\$ 34,357	\$ 21,970	\$ 8,058	\$ 9,596	\$ 140,342
Less: reinsurance recoverable	(11,631)	(3,013)	(7,485)	—	(3,463)	(25,592)
Balance as of end of period, net of reinsurance recoverable	\$ 54,730	\$ 31,344	\$ 14,485	\$ 8,058	\$ 6,133	\$ 114,750
Average interest rate	4.18 %	2.79 %	3.30 %	4.31 %	3.31 %	3.65 %
Net amount at risk, gross of reinsurance ⁽⁴⁾	\$ —	\$ —	\$ 110,149	\$ —	\$ 1,132	\$ 111,281
Cash surrender value ⁽⁵⁾	\$ 51,630	\$ 34,872	\$ 13,867	\$ —	\$ 4,425	\$ 104,794

- (1) "Other" consists of activity related to payout annuities without life contingencies, preneed, variable annuities, and life products.
- (2) Interest includes interest credited to policyholders' account values, and interest accreted in other components of the policyholder account balance, including investment-type contract values, host amounts for contractholder deposits with embedded derivatives, funding agreements, and other associated reserves.
- (3) "Other activity" includes policy charges, fees and commissions, transfers, assumption changes, fair value changes, and the impact of hedge fair value adjustments.
- (4) Net amount at risk represents the difference between the face value of the insurance policy, and the reserve accumulated under that same policy.
- (5) Cash surrender values are reported net of any applicable surrender charges, net of reinsurance.

The following table presents the account values by range of guaranteed minimum crediting rates and the related range of differences, in basis points, between rates being credited to policyholders and the respective guaranteed minimums. Account values, as disclosed below, differ from policyholder account balances as they exclude balances associated with index credits, contractholder deposit fund host balances, funding agreements, and other associated reserves. In addition, policyholder account balances include discounts and premiums on assumed business which are not reflected in account values.

Range of guaranteed minimum crediting rates:	As of March 31, 2026					
	Account values with adjustable crediting rates subject to guaranteed minimums:					Total
	At guaranteed minimum	1 - 49 bps above guaranteed minimum	50 - 99 bps above guaranteed minimum	100 - 150 bps above guaranteed minimum	Greater than 150 bps above guaranteed minimum

Issuances	\$ 587	\$ 122	\$ 709	\$ 359	\$ 102	\$ 461
Interest	227	115	342	181	114	295
Benefit payments	(551)	(244)	(795)	(488)	(221)	(709)
Ending balance at original discount rate	\$ 25,385	\$ 9,454	\$ 34,839	\$ 22,166	\$ 9,300	\$ 31,466
Effect of changes in discount rate assumptions	(2,695)	(140)	(2,835)	(2,788)	(115)	(2,903)
Balance as of end of period	\$ 22,690	\$ 9,314	\$ 32,004	\$ 19,378	\$ 9,185	\$ 28,563
Net liability for future policy benefits	\$ 22,690	\$ 7,769	\$ 30,459	\$ 19,378	\$ 7,650	\$ 27,028
Less: reinsurance recoverable ⁽³⁾	(10,166)	(6,086)	(16,252)	(9,626)	(6,125)	(15,751)
Net liability for future policy benefits, net of reinsurance recoverables	\$ 12,524	\$ 1,683	\$ 14,207	\$ 9,752	\$ 1,525	\$ 11,277

- (1) Payout annuities generally only have a single premium received at contract inception. As a result, the liability for future policy benefits generally would not reflect a present value for future premiums for payout annuities.
- (2) "Other" consists of activity related to long-term care insurance, variable annuities, traditional life insurance, preneed insurance, and fixed-rate annuity products. Mortality and morbidity risks associated with the long-term care insurance have been ceded to a third-party reinsurer.
- (3) Reinsurance recoverables associated with the liability for future policy benefits is net of the effect of changes in discount rate assumptions of \$(190) million and \$156 million for the three months ended March 31, 2026, and 2025, respectively.

The following table summarizes the amount of gross premiums related to traditional and limited-payment contracts recognized in the consolidated statements of income (loss) for the three months ended March 31, 2026, and 2025:

	Gross premiums	
	Three months ended March 31,	
	2026	2025
(\$ in millions)		
Payout annuities	\$ 613	\$ 395
Other	237	192
Total products	\$ 850	\$ 587

The following table reflects the weighted-average duration and weighted-average interest rates of the future policy benefit liability as of March 31, 2026, and December 31, 2025:

	As of March 31, 2026	
	Payout annuities	Other
Weighted-average interest rates, original discount rate	4.27 %	5.25 %
Weighted-average interest rates, current discount rate	5.40 %	5.33 %
Weighted-average liability duration (years, current rates)	8.30	8.90

	As of December 31, 2025	
	Payout annuities	Other
Weighted-average interest rates, original discount rate	4.22 %	5.25 %
Weighted-average interest rates, current discount rate	5.19 %	5.11 %
Weighted-average liability duration (years, current rates)	8.30	9.10

The following reflects the undiscounted ending balance of expected future gross premiums and expected future benefits and payments for traditional and limited-payment contracts as of March 31, 2026, and December 31, 2025:

(\$ in millions)	As of March 31, 2026	
	Payout annuities	Other
Expected future benefit payments, undiscounted	\$ 39,536	\$ 16,271
Expected future benefit payments, discounted (original discount rate)	25,385	9,454
Expected future benefit payments, discounted (current discount rate)	22,690	9,314
Expected future gross premiums, undiscounted	—	2,241
Expected future gross premiums, discounted (original discount rate)	—	1,771
Expected future gross premiums, discounted (current discount rate)	—	1,760

(\$ in millions)	As of December 31, 2025	
	Payout annuities	Other
Expected future benefit payments, undiscounted	\$ 38,990	\$ 16,462
Expected future benefit payments, discounted (original discount rate)	25,125	9,467
Expected future benefit payments, discounted (current discount rate)	22,762	9,461
Expected future gross premiums, undiscounted	—	2,388
Expected future gross premiums, discounted (original discount rate)	—	1,891
Expected future gross premiums, discounted (current discount rate)	—	1,880

For the three months ended March 31, 2026, we recognized \$259 million, in other comprehensive income (loss) (gross of the impact of reinsurance) due to changes in the future policy benefits estimate from updating discount rates. During the three months ended March 31, 2026 and 2025, there were no changes to the methods used to determine the discount rates.

Additional liability for annuitization, death, or other insurance benefits

The following tables reflect the additional liability for annuitization, death, or other insurance benefits roll-forward for the three months ended March 31, 2026, and 2025:

	Three months ended	
	March 31, 2026	March 31, 2025
(\$ in millions)		
Balance as of beginning of period	\$ 8,006	\$ 7,630
Effect of changes in experience	(20)	(65)
Adjusted balance as of beginning of period	\$ 7,986	\$ 7,565
Issuances	6	5
Assessments	177	175
Benefits paid	(154)	(140)
Interest	66	63
Balance as of end of period	\$ 8,081	\$ 7,668
Less: impact of unrealized investment gains and losses	63	74
Less: reinsurance recoverable, end of period	1,793	1,629
Balance, end of period, net of reinsurance recoverable and impact of unrealized investment gains and losses	\$ 6,225	\$ 5,965

The additional liability for annuitization, death, or other insurance benefits relates primarily to secondary guarantees on certain interest-sensitive life products, and preneed insurance.

The following reflects the amount of gross assessments recognized for the additional liability for annuitization, death, or other insurance benefits in the consolidated statements of income (loss) for the three months ended March 31, 2026, and 2025:

	Gross assessments	
	Three months ended March 31,	
	2026	2025
(\$ in millions)		
Total amount recognized within revenue in the consolidated statements of income (loss)	\$ 174	\$ 139

The following reflects the weighted average duration and weighted average interest rate for the additional liability for annuitization, death, or other insurance benefits as of March 31, 2026, and December 31, 2025:

	As of	
	March 31, 2026	December 31, 2025
Weighted-average interest, current discount rate	3.30 %	3.30 %
Weighted-average liability duration (years)	24	24.79

Market risk benefits

The following table presents the balances of, and changes in, market risk benefits:

(\$ in millions, except for percentages and policyholder information)	Three months ended					
	March 31, 2026			March 31, 2025		
	Fixed-indexed annuity	Variable-and other annuities	Total	Fixed-indexed annuity	Variable-and other annuities	Total
Balance as of beginning of period	\$ 1,141	\$ 208	\$ 1,349	\$ 816	\$ 184	\$ 1,000
Balance as of beginning of period, before impact of changes in instrument-specific credit risk	\$ 1,009	\$ 170	\$ 1,179	\$ 717	\$ 150	\$ 867
Issuances	26	—	26	19	—	19

Effect of actual experience different from assumptions	6	—	6	9	(3)	6
Effect of changes in other future expected assumptions	—	—	—	44	—	44
Balance as of end of period before impact of changes in instrument-specific credit risk	\$ 1,073	\$ 202	\$ 1,275	\$ 879	\$ 209	\$ 1,088
Effect of changes in instrument-specific credit risk	96	32	128	87	31	118
Balance as of end of period	\$ 1,169	\$ 234	\$ 1,403	\$ 966	\$ 240	\$ 1,206
Less: reinsurance recoverable as of the end of the period	(10)	(11)	(21)	—	(12)	(12)
Balance as of end of period, net of reinsurance recoverable	\$ 1,159	\$ 223	\$ 1,382	\$ 966	\$ 228	\$ 1,194
Net amount at risk	\$ 5,558	\$ 1,343	\$ 6,901	\$ 4,817	\$ 1,369	\$ 6,186
Weighted-average attained age of contract holders (years)	72	71	72	71	70	71

The following reflects the reconciliation of the market risk benefits reflected in the preceding table to the amounts reported in an asset and liability position, respectively, in the consolidated balance sheets as of March 31, 2026, and December 31, 2025:

(\$ in millions)	As of March 31, 2026			As of December 31, 2025		
	Asset	Liability	Net	Asset	Liability	Net
Fixed-indexed annuities	\$ —	\$ 1,170	\$ (1,170)	\$ 1	\$ 1,142	\$ (1,141)
Variable- and other annuities	1	234	(233)	—	208	(208)
Total	\$ 1	\$ 1,404	\$ (1,403)	\$ 1	\$ 1,350	\$ (1,349)

Separate account liabilities

Separate account assets and liabilities consist of investment accounts established and maintained by the Company for certain variable annuity and interest-sensitive life insurance contracts. Some of these contracts include minimum guarantees such as GMDBs and GMWBs that guarantee a minimum payment to the policyholder.

The assets that support these variable annuity and interest-sensitive life insurance contracts are measured at fair value and are reported as separate account assets on the consolidated balance sheet. An equivalent amount is reported as separate account liabilities. Market risk benefit assets and liabilities for minimum guarantees are valued and presented separately from separate account assets and separate account liabilities. For more information on market risk benefits see “–Market risk benefits” in this footnote. Policy charges assessed against the policyholders for mortality, administration, and other services are included in “Policy fees” in the consolidated statements of income (loss).

The following table presents the balances of, and changes in, separate account liabilities:

	Three months ended					
	March 31, 2026			March 31, 2025		
	Variable annuities	Interest-sensitive life	Total	Variable annuities	Interest-sensitive life	Total
(\$ in millions)						
Balance as of beginning of period	\$ 3,215	\$ 626	\$ 3,841	\$ 3,401	\$ 580	\$ 3,981
Premiums and deposits	6	3	9	7	3	10
Surrenders, withdrawals, and benefit payments	(126)	(16)	(142)	(136)	(4)	(140)
Investment performance	(72)	(15)	(87)	(62)	(14)	(76)
Other	(23)	(13)	(36)	(26)	(10)	(36)
Balance as of end of period	\$ 3,000	\$ 585	\$ 3,585	\$ 3,184	\$ 555	\$ 3,739
Cash surrender value as of end of period ⁽¹⁾	\$ 3,000	\$ 585	\$ 3,585	\$ 3,184	\$ 555	\$ 3,739

(1) Cash surrender value attributed to the separate accounts does not reflect the impact of surrender charges; surrender charges are attributed to policyholder account balances recorded in the general account.

The following table presents the aggregate fair value of assets, by major investment asset type, supporting separate accounts:

	March 31, 2026	December 31, 2025
(\$ in millions)		
Asset type:		
Managed volatility equity/fixed income blended fund	\$ 1,638	\$ 1,758
Equity	1,611	1,742
Fixed income	135	140
Money market	201	201
Total assets supporting separate account liabilities	\$ 3,585	\$ 3,841

8. Reinsurance

The Company maintains a number of reinsurance treaties with third parties whereby the Company assumes annuity and life policies on a coinsurance, modified coinsurance or funds withheld basis. The Company also maintains other reinsurance treaties including the cession of certain annuity, life, and health policies.

The effects of all reinsurance agreements on the consolidated balance sheets were as follows:

	March 31, 2026	December 31, 2025
(\$ in millions)		
Policy liabilities:		
Direct	\$ 97,093	\$ 97,383
Assumed	107,634	108,176
Total policy liabilities	204,727	205,559
Ceded ⁽¹⁾	(50,155)	(47,727)
Net policy liabilities	\$ 154,572	\$ 157,832

(1) Reported within reinsurance recoverable within the consolidated balance sheets.

A key credit quality indicator is a counterparty's A.M. Best financial strength rating. A.M. Best ratings are an independent opinion of a reinsurer's ability to meet ongoing obligations to policyholders. The Company mitigates counterparty credit risk by requiring collateral and credit enhancements in various forms including engaging in funds withheld at interest and modified coinsurance transactions. The following shows the amortized cost basis of the Company's reinsurance recoverable and funds withheld receivable at interest by credit quality indicator and any associated credit enhancements the Company has obtained to mitigate counterparty credit risk:

A.M. Best Rating ⁽¹⁾	As of March 31, 2026			As of December 31, 2025		
	Reinsurance recoverable and funds withheld receivable at interest	Credit enhancements ⁽²⁾	Net reinsurance credit exposure ⁽³⁾	Reinsurance recoverable and funds withheld receivable at interest	Credit enhancements ⁽²⁾	Net reinsurance credit exposure ⁽³⁾
(\$ in millions)						
A++	\$ 96	\$ —	\$ 96	\$ 77	\$ —	\$ 77
A+	2,034	—	2,034	2,106	—	2,106
A	1,555	—	1,555	1,551	—	1,551
A-	3,542	3,091	451	3,634	3,183	451
B++	2	—	2	2	—	2
Not rated or private rating ⁽⁴⁾	45,491	46,269	—	42,977	43,640	—
Total	\$ 52,720	\$ 49,360	\$ 4,138	\$ 50,347	\$ 46,823	\$ 4,187

(1) Ratings are periodically updated (at least annually) as A.M. Best issues new ratings.

(2) Credit enhancements primarily include funds withheld payable at interest.

(3) Includes credit loss allowance of \$30 million and \$26 million as of March 31, 2026, and December 31, 2025, respectively, held against reinsurance recoverable and funds withheld receivable at interest.

(4) Includes \$45.5 billion and \$43.0 billion as of March 31, 2026, and December 31, 2025, respectively, associated with cessions to co-investment vehicles ("Ivy and other co-investment vehicles") that participate in qualifying reinsurance transactions sourced by Global Atlantic.

As of both March 31, 2026, and December 31, 2025, the Company had \$2.3 billion of funds withheld receivable at interest with six counterparties related to modified coinsurance and funds withheld

contracts. The assets supporting the funds withheld receivable at interest balance are held in trusts for the benefit of the Company.

The effects of reinsurance on the consolidated statements of income (loss) were as follows:

	Three months ended	
	March 31,	
	2026	2025
(\$ in millions)		
Premiums:		
Direct	\$ 431	\$ 212
Assumed	432	387
Ceded	(301)	(276)
Net premiums	\$ 562	\$ 323

	Three months ended	
	March 31,	
	2026	2025
(\$ in millions)		
Policy fees:		
Direct	\$ 217	\$ 226
Assumed	270	273
Ceded	(161)	(161)
Net policy fees	\$ 326	\$ 338

	Three months ended	
	March 31,	
	2026	2025
(\$ in millions)		
Policy benefits and claims:		
Direct	\$ 1,168	\$ 1,027
Assumed	1,631	1,538
Ceded	(919)	(857)
Net policy benefits and claims	\$ 1,880	\$ 1,708

The Company holds collateral for, and provides collateral to, our reinsurance clients. The Company held \$51.8 billion and \$49.0 billion of collateral in the form of funds withheld payable at interest on behalf of our reinsurers as of March 31, 2026, and December 31, 2025, respectively. As of both March 31, 2026, and December 31, 2025, reinsurers held collateral of \$1.1 billion on behalf of the Company, respectively. A significant portion of the collateral that the Company provides to its reinsurance clients is provided in the form of assets held in a trust for the benefit of the counterparty. As of March 31, 2026, and December 31, 2025, these trusts held in excess of the \$107.4 billion and \$107.3 billion of assets they are required to hold in order to support reserves of \$103.6 billion and \$104.1 billion, respectively. Of the cash held in trust, the Company classified \$178 million and \$139 million as restricted as of March 31, 2026, and December 31, 2025, respectively.

9. Debt

Debt was comprised of the following:

	March 31, 2026		December 31, 2025	
	Amount	Rate	Amount	Rate
(\$ in millions, except interest rates)				
Revolving credit facility, due January 2027	\$ —	— %	\$ —	— %
Revolving credit facility, due May 2029	—	— %	—	— %
Senior notes, due October 2029 ⁽²⁾	500	4.40 %	500	4.40 %
Senior notes, due June 2031	650	3.13 %	650	3.13 %
Senior notes, due June 2033	650	7.95 %	650	7.95 %
Senior notes, due March 2054	750	6.75 %	750	6.75 %
Subordinated debentures, due October 2051	24	4.70 %	24	4.70 %
Subordinated debentures, due October 2054	600	7.95 %	600	7.95 %
Subordinate Debt \$600mm, due Oct 2056	600	7.25 %	600	7.25 %
Total debt – principal	3,774		3,774	
Other debt obligations of consolidated special purpose vehicles ⁽¹⁾⁽⁴⁾	207	6.02 %	197	6.27 %
Purchase accounting adjustments ⁽²⁾	25		27	
Debt issuance costs, net of accumulated amortization ⁽³⁾	(54)		(54)	
Fair value loss of hedged debt obligations, recognized in net income	(139)		(124)	
Total debt	\$ 3,813		\$ 3,820	

(1) These debt obligations primarily include debt obligations of consolidated co-investment vehicles that are not guaranteed by the Company.

(2) The amortization of the purchase accounting adjustment was \$2 million for both the three months ended March 31, 2026, and 2025, respectively.

(3) The amortization of the debt issuance costs was \$1 million for both the three months ended March 31, 2026, and 2025, respectively.

(4) Represents a weighted average interest rate.

Global Atlantic Insurance Operating Company Revolving Credit Facility

On January 16, 2026, the Company and GA FinCo (together, the “GA Guarantors”) and certain direct and indirect insurance company subsidiaries of the Guarantors (such insurance company subsidiaries, the “GA OpCo Borrowers”, and together with the Guarantors, the “GA OpCo Credit Parties”) entered into a credit agreement (the “GA OpCo Credit Agreement”) with Wells Fargo Bank, N.A., as administrative agent (the “GA Administrative Agent”) and other lenders from time to time party thereto.

The GA OpCo Credit Agreement provides the GA OpCo Borrowers with an unsecured revolving credit facility (the “GA OpCo Credit Facility”) in an aggregate principal amount of \$3.00 billion as of January 16, 2026, with the option to request an increase in the facility amount of up to an additional \$500 million, for an aggregate principal amount of \$3.50 billion, subject to certain conditions, including obtaining new or increased commitments from new or existing lenders. The GA OpCo Credit Facility is a 364-day facility, scheduled to mature on January 15, 2027, which may from time to time be extended for additional 364-day periods at the GA OpCo Borrowers’ option, subject to the consent of the applicable lenders, and the GA OpCo Borrowers may prepay, terminate or reduce the commitments under the GA OpCo Credit Facility at any time without penalty. Borrowings under the GA OpCo Credit Facility are available for general corporate purposes including working capital. Interest on borrowings under the GA OpCo Credit Facility will be based on either (i) the term Secured Overnight Financing Rate (SOFR), plus a margin based on a corporate ratings-based grid ranging from 1.10% to 1.375%, or (ii) an alternate base rate, plus a margin based on a corporate ratings-based grid ranging from 0.10% to 0.375%.

Certain other terms of the GA OpCo Credit Agreement include: (i) financial covenants that require the Company and certain of its consolidated subsidiaries not to exceed a specified debt-to-total-capitalization ratio and to satisfy a net worth threshold; (ii) customary representations, affirmative covenants and certain negative covenants; and (iii) customary events of default, upon the occurrence of which the lenders will have the ability to accelerate all outstanding loans under the GA OpCo Credit Facility and terminate the commitments.

Debt obligations of consolidated special purpose vehicles and joint ventures

In May 2024, GA Iris FinCo LLC, ("Iris FinCo") an indirect subsidiary of the Company, as borrower, and GA Iris LLC, a consolidated sponsored reinsurance vehicle ("GA Iris") as guarantor, entered into a Senior Unsecured Credit Agreement, ("Iris Credit Facility") with Wells Fargo Bank, N.A, as administrative agent. The Iris Credit Facility provides for up to \$240 million of revolving borrowings (with the option to increase up to an additional \$20 million) and has a maturity date of May 2027. Interest on borrowings will accrue at term SOFR plus a spread ranging from 1.85% to 2.60%. In June 2024, GA Iris, entered into a Subscription Credit Facility Agreement, ("Iris Subscription Facility") with EVERBANK, N.A. The Iris Subscription Facility provides for up to \$100 million of revolving borrowings and has a maturity date of June 2027. Interest on borrowings will accrue at term SOFR plus 2.75%. Neither of these facilities are guaranteed by GALD, KKR or any of their respective subsidiaries (other than GA Iris with respect to the Iris Credit Facility).

In June 2024, GA Iris, entered into a Subscription Credit Facility Agreement, ("Iris Subscription Facility") with EVERBANK, N.A. The Iris Subscription Facility provides for up to \$100 million of revolving borrowings and has a maturity date of June 2027. Neither of these facilities are guaranteed by GALD, KKR or any of their respective subsidiaries (other than GA Iris with respect to the Iris Credit Facility).

Debt Covenants

Borrowings of the Company contain various debt covenants. These covenants do not, in management's opinion, materially restrict the Company's operating business or investment strategies as of March 31, 2026. The Company was in compliance with such debt covenants in all material respects as of March 31, 2026.

10. Composition of other assets and liabilities

Other assets consist of the following:

	March 31, 2026	December 31, 2025
(\$ in millions)		
Deferred tax assets, net	\$ 2,985	\$ 2,822
Goodwill	510	510
Investments in-course of settlement ⁽¹⁾ and derivative collateral receivables	695	435
Derivative assets	371	306
Miscellaneous assets	304	322
Premiums and other account receivables	205	234
Operating lease right-to-use assets ⁽²⁾	153	157
Market risk benefit assets	1	1
Intangible assets	219	233
Total other assets	\$ 5,443	\$ 5,020

- (1) Primarily includes amounts due from third parties for investments sold for which cash settlement has not occurred.
- (2) The non-cancelable operating leases consist of leases for office space and renewal energy forward power purchase agreements in North America. The operating lease costs were \$6 million and \$7 million for the three months ended March 31, 2026, and 2025, respectively.

The definite life intangible assets are amortized using the straight-line method over the useful life of the assets which is an average of 8.0 years. The indefinite life intangible assets are not subject to amortization. The amortization expense of definite life intangible assets was \$14 million and \$5 million for the three months ended March 31, 2026, and 2025, respectively.

Other liabilities consist of the following:

	March 31, 2026	December 31, 2025
(\$ in millions)		
Investments in-course of settlement ⁽¹⁾ and derivative collateral liabilities	\$ 1,877	\$ 926
Accrued expenses ⁽²⁾	958	892
Securities sold under agreements to repurchase	715	664
Derivative liabilities	394	436
Insurance operations balances in course of settlement	175	136
Operating lease liabilities ⁽³⁾	173	176
Accrued employee related expenses	89	115
Current income tax payable	74	72
Interest payable	60	37
Tax payable to former parent company	44	46
Accounts and commissions payables	39	47
Other tax related liabilities	18	24
Total other liabilities	\$ 4,616	\$ 3,571

- (1) Primarily includes amounts owed to third parties for investment purchases for which cash settlement has not occurred.
- (2) Includes related party balances of \$208 million and \$179 million as of March 31, 2026, and December 31, 2025, respectively.
- (3) Operating leases for office space have remaining lease terms that range from approximately 2 years to 9 years, some of which include options to extend the leases for up to 10 years. The weighted average remaining lease terms were 6.6 years and 6.8 years as of March 31, 2026, and December 31, 2025, respectively. The weighted average discount rates were 4.9% as of both March 31, 2026, and December 31, 2025, respectively.

11. Accumulated other comprehensive income (loss)

Information regarding amounts reclassified out of each component of accumulated other comprehensive income (loss) for the three months ended March 31, 2026, and 2025 were as follows:

Components of accumulated other comprehensive income (loss)	Consolidated statements of income (loss) and consolidated statements of comprehensive income (loss) location	Three months ended	
		March 31,	
		2026	2025
(\$ in millions)			
Net unrealized investment-related gains (losses) on other investments:			
Net unrealized investment losses	Net investment-related gains (losses)		
Net unrealized investment losses, before income tax		\$ (153)	\$ (1,165)
Income tax expense (benefit)		(29)	(234)
Net unrealized investment losses, net of income tax, reclassified		\$ (124)	\$ (931)

12. Equity-based compensation plans

The components of equity-based compensation and long-term incentives expense were as follows:

	Three months ended	
	March 31, 2026	March 31, 2025
(\$ in millions)		
KKR equity incentive plan and other equity-classified awards	26	21
Total equity-based compensation expense	\$ 26	\$ 21
Deferred tax asset	\$ 5	\$ 3

No equity-based compensation costs were capitalized during the three months ended March 31, 2026, and 2025.

Equity-classified awards

KKR equity incentive plans

Service-vesting awards

Employees of Global Atlantic are eligible for the grant of KKR & Co., Inc. restricted stock units, or "RSUs," under the terms of the KKR & Co., Inc. 2019 Equity Incentive Plan. Awards are generally subject to service-based vesting, typically over a three-to-five-year vesting period. The expense associated with equity-based compensation in connection with KKR equity incentive awards is based on the closing price of KKR & Co. Inc. common stock on the date of grant, discounted for the lack of participation rights in the expected dividends on unvested shares. Expense is recognized on a straight-line basis over the life of the

award and assumes a forfeiture rate of up to 4% annually based upon expected turnover by class of recipient.

As of March 31, 2026, there was approximately \$102 million of total estimated unrecognized expense related to unvested Service-Vesting Awards, which is expected to be recognized over the weighted average remaining requisite service period of 1.0 years.

The table below presents the activity related to equity-classified compensation with service-based vesting conditions, for the three months ended March 31, 2026:

	Three months ended March 31, 2026	
	Shares	Weighted average grant date fair value per share
Outstanding balance, as of beginning of period	2,556,722	\$ 80.94
Granted	10,273	126.81
Forfeitures	(23,627)	94.54
Transfers In/(Out)	77,408	53.80
Vested	(501,492)	59.15
Outstanding balance, as of end of period	2,119,284	\$ 85.18

Market condition awards

KKR also grants restricted stock units and restricted holdings units ("RHUs") that are subject to both a service-based vesting condition and a market price based vesting condition (referred to hereafter as "Market Condition Awards") to certain Global Atlantic employees.

The number of Market Condition Awards that will vest depend upon (i) the market price of KKR common stock reaching certain price targets that range from \$95.80 to \$135.80 and (ii) the employee being employed by Global Atlantic on a certain date, which typically ranges from 5 to 6 years from the date of grant (with exceptions for involuntary termination without cause, death, and permanent disability). The market price vesting condition is met when the average closing price of KKR common stock during 20 consecutive trading days meets or exceeds the stock price targets. Holders of the Market Condition Awards do not participate in dividends until such awards have met both their service-based and market price based vesting requirements. Additionally, these awards are subject to additional transfer restrictions and minimum retained ownership requirements after vesting.

Due to the existence of the service requirement, the vesting period for these Market Condition Awards is explicit, and as such, compensation expense will be recognized on (i) a straight-line basis over the period from the date of grant through the date the award recipient is required to be employed by Global Atlantic and (ii) assumes a forfeiture rate of up to 4% annually based upon expected turnover. The fair value of the awards granted is based on a Monte Carlo simulation valuation model. In addition, the grant date fair value assumes that holders of the Market Condition Awards will not participate in dividends until such awards have met all of their vesting requirements.

Below is a summary of the grant date fair value based on the Monte Carlo simulation valuation model and the significant assumptions used to estimate the grant date fair value of these Market Condition Awards:

	Weighted Average	Range
Grant Date Fair Value	\$57.35	\$22.56 - \$61.81
Closing KKR share price as of valuation date	\$79.12	\$37.93 - \$82.85
Risk Free Rate	3.68%	0.41% - 4.41%
Volatility	29.87%	28.00% - 30.00%
Dividend Yield	0.89%	0.84% - 1.53%
Expected Cost of Equity	10.49%	10.45% - 11.00%

As of March 31, 2026, there was approximately \$36 million of total estimated unrecognized expense related to these unvested Market Condition Awards, which is expected to be recognized over the weighted average remaining requisite service period of 2.2 years.

The table below presents the activity related to unvested Market Condition Awards, for the three months ended March 31, 2026:

	Three months ended March 31, 2026	
	Shares	Weighted average grant date fair value per share
Outstanding balance, as of beginning of period	1,778,856	\$ 54.87
Granted	—	—
Forfeited	—	—
Vested	(678,856)	30.12
Transfers in (out)	864,433	32.23
Outstanding balance, as of end of period	1,964,433	\$ 53.46

As of March 31, 2026, all of the Market Condition Awards have met their market price based vesting conditions. These Market Condition Awards remain unvested until their service conditions (as described above) are satisfied.

13. Income taxes

The provision for income taxes represents federal and state income taxes. The effective tax rate for the three months ended March 31, 2026, and 2025 was 13.2% and 18.6%, respectively. The effective tax rate on income before income taxes for the three months ended March 31, 2026, and 2025 differs from the U.S. federal statutory rate primarily due to noncontrolling interest and equity based compensation deductions.

During the three months ended March 31, 2026, there were no material changes to GA's uncertain tax positions and GA believes there will not be a material increase or decrease to these uncertain tax positions within 12 months of the reporting date.

Each reporting period, management assesses all available positive and negative evidence to estimate whether sufficient future taxable income will be generated to realize existing deferred tax assets. As of March 31, 2026, Global Atlantic continues to maintain that its deferred tax assets are more likely than not to be realized and, therefore, no valuation allowance is needed. It is reasonably possible that prolonged market volatility may negatively affect the Company's operating results and its ability to execute on its tax planning strategies and may warrant the establishment of a valuation allowance on a

portion our deferred tax assets within the next 12 months. A valuation allowance of \$6.0 million remains at GA Iris LLC, as it is not more-likely-than-not that the benefits will be realized in the future based on all available evidence, GA Iris LLC files a separate US Federal income tax return from its Parent, GALD.

On December 27, 2023, the Government of Bermuda enacted the Bermuda Corporate Income Tax ("Bermuda CIT"). Commencing on January 1, 2025, the Bermuda CIT generally will impose a 15% corporate income tax on in-scope entities that are resident in Bermuda or have a Bermuda permanent establishment, without regard to any assurances pursuant to the Exempted Undertakings Tax Protection Act 1966. As of March 31, 2026, the Company maintains a full valuation allowance of \$159 million on deferred tax assets in connection with Bermuda CIT, primarily on available-for-sale securities, as the Company does not believe those deferred tax assets are more likely than not to be realized.

14. Related party transactions

The Company has investment management service agreements with KKR. KKR provides investment management services across the Company. The Company recorded expenses for these agreements of \$176 million and \$160 million for the three months ended March 31, 2026, and 2025, respectively, and related payables due to KKR of \$176 million and \$179 million as of March 31, 2026, and December 31, 2025, respectively.

The Company has agreements to share expenses with its parent company KKR. The Company recorded expenses for these agreements of \$4 million and \$3 million for the three months ended March 31, 2026, and 2025, respectively, and had \$32 million payable due to KKR associated with such expenses and direct pass-through expenses as of March 31, 2026.

During the three months ended March 31, 2026, Global Atlantic received \$247 million of capital contributions from its ultimate parent in the form of interests in certain debt securities and investment funds. These investments were recognized at their respective fair values as of the date of the contribution. In January 2024, Global Atlantic acquired a non-controlling limited partnership interest in two investment funds from its ultimate parent company KKR, the Diversified Core Infrastructure Fund ("DCIF") and the KKR Property Partners Americas Fund ("KPPA"), for \$555 million and \$353 million, respectively. In addition, Global Atlantic, as lender, entered into a \$1 billion credit agreement with a KKR affiliate. The Company also, in the ordinary course of business, enters into agreements with, or investments in, certain KKR portfolio companies that are affiliated companies for investment management or other services.

Certain of the Company's sponsored co-investment vehicles are controlled by the Company or KKR, its ultimate parent, and therefore are considered affiliates. From time to time, these vehicles may enter into reinsurance agreements with wholly owned subsidiaries of the Company. As of December 31, 2025, the Company reported \$2.0 billion of funds withheld at interest payables under such agreements to these affiliated vehicles.

In 2022, the Company and Panamint Capital, or "Panamint," a utility-scale renewable energy developer, entered into a series of agreements whereby the Company invested in a minority equity position in Panamint and agreed to provide financing to its operations. In addition, the Company has the option to purchase projects sourced by Panamint and finance related redevelopment work. The agreements with Panamint enable the Company to exercise significant influence over the operating and financial policies of Panamint. The Company reported a fixed maturity investment of \$30 million and no equity method investment as of March 31, 2026, and a fixed maturity investment of \$27 million and no equity method investment in Panamint as of December 31, 2025, respectively.

The Company has controlling interests in projects sourced by Panamint that we consolidate. Panamint is operating and will redevelop the projects, in exchange for certain fees and a minority equity stake in the projects. The amount of these purchases of controlling interests totaled \$111 million. These project investments are reported in Other investments.

In 2022, the Company acquired controlling interests in Drawbridge, a \$1.6 billion portfolio of commercial real estate, a portion of which had previously been held by KKR owned fund investments.

On December 13, 2021, the Company acquired an equity interest in Avenue One Holdings ("Avenue One") that enables the Company to exercise significant influence. Avenue One provides services related to certain real estate investments held by the Company, including sourcing, renovating and managing properties. The Company paid \$1 million and \$4 million during the three months ended March 31, 2026, and 2025, respectively, to Avenue One for the sourcing, renovation, and management of properties. Amounts related to sourcing and renovating properties are recognized in the cost of the real estate on the balance sheet, and the management fees are recognized in net investment income. As of March 31, 2026, and December 31, 2025, there was a \$426 thousand and \$466 thousand payable outstanding to Avenue One under the related services agreement.

The Company held related party investments in its portfolio as of March 31, 2026, and December 31, 2025 as follows:

Type	Balance sheet classification	As of March 31, 2026		
		Asset carrying value	Accrued interest	Total balance sheet amount
(\$ in millions)				
KKR-issued investments	AFS fixed maturity securities	\$ 5,561	\$ 38	\$ 5,599
KKR-issued investments	Trading fixed maturity securities	1,577	12	1,589
KKR-issued investments	Real assets	340	—	340
KKR-issued investments	Other investments	3,310	—	3,310
Total related party investments		\$ 10,788	\$ 50	\$ 10,838

Type	Balance sheet classification	As of December 31, 2025		
		Asset carrying value	Accrued interest	Total balance sheet amount
(\$ in millions)				
KKR-issued investments	AFS fixed maturity securities	\$ 5,540	\$ 102	\$ 5,642
KKR-issued investments	Trading fixed maturity securities	1,355	17	1,372
KKR-issued investments	Real assets	339	—	339
KKR-issued investments	Other investments	2,787	—	2,787
Total related party investments		\$ 10,021	\$ 119	\$ 10,140

The Company earned net investment losses and net investment-related gains (losses) from related party investments, and from investments managed by related parties, as follows:

	Three months ended	
	March 31, 2026	March 31, 2025
(\$ in millions)

Net investment-related gains (losses)		
Other investments	\$ 43	\$ (3)
KKR securities	(86)	(6)
Total net investment-related gains (losses)	\$ (43)	\$ (9)

15. Commitments and contingencies

Commitments

The Company enters into lease contracts, the most significant being leases of office space for its operations and land leases for its consolidated solar and real estate subsidiaries. The Company reports these leases as right-to-use assets with a corresponding lease liability in other assets and other liabilities in the consolidated balance sheets, respectively. The lease liability represents the present value of the lease payments to be made over the lease term and is calculated using a discount rate equal to the Company's incremental borrowing rates, which range from 2.4% to 7.8% depending on the term. As of March 31, 2026, the Company has a right-to-use asset of \$153 million (net of \$18 million in deferred rent and lease incentives) and a corresponding lease liability of \$171 million. As of December 31, 2025, the Company has a right-to-use asset of \$157 million (net of \$17 million in deferred rent and lease incentives) and a corresponding lease liability of \$174 million.

The Company has commitments to purchase or fund investments of \$6.3 billion and \$7.3 billion as of March 31, 2026, and December 31, 2025, respectively. These commitments include those related to mortgage loans, other lending facilities, and real assets. The commitment periods vary, with most extending for the next 3 years, but some extend longer. Some of these investment commitments may be subject to conditions that must be met prior to funding. For those commitments that represent a contractual obligation to extend credit, the Company has recorded a liability of \$28 million for current expected credit losses as of March 31, 2026.

In addition, the Company has entered into agreements to purchase loans. Our obligations under these agreements are subject to change, curtailment, and cancellation based on various provisions including repricing mechanics, due diligence reviews, and performance or pool quality, among other factors.

Contingencies

Guarantees

In the ordinary course of business, Global Atlantic enters into contracts that contain a variety of representations, warranties, covenants, indemnifications, and guarantees, including, for example, related to the purchase or sale of assets and businesses and lease obligations under certain special purpose vehicles. These various arrangements may have a variety of triggering events, such as the occurrence of specified business contingencies, or breaches of representations, warranties or covenants provided by Global Atlantic. These arrangements are typically subject to various time limitations, defined by the contract or by operation of law, such as statutes of limitation. In some cases, the maximum potential obligation is subject to contractual limitations, while in other cases such limitations are not specified or are not applicable.

In connection with the Senior Notes due 2029, 2031, 2033, and 2054 issued by Global Atlantic (Fin) Company, or "FinCo," a Delaware corporation and a subsidiary of the Company, the Company has agreed to fully and unconditionally guarantee the notes on a senior unsecured basis. In December 2024, FinCo also entered into certain interest rate derivative swap agreements related to the Senior Notes due 2029 and 2031. Additionally, in February 2025 and April 2025, FinCo also entered into certain interest rate derivative swap agreements related to the Senior Notes due 2033 and 2054, respectively.

In connection with the Subordinated Debentures due 2051, 2054, and 2056 issued by FinCo, the Company has agreed to fully and unconditionally guarantee the notes on a subordinated, unsecured basis. In September 2025, FinCo entered into certain interest rate derivative swap agreements related to the Subordinated Debentures due 2054. In November 2025, FinCo also entered into certain interest rate derivative swap agreements related to the Subordinated Debentures due 2056.

In connection with the 5-year \$1.0 billion RCF entered into by FinCo, the Company has agreed to jointly and severally guarantee, together with any subsidiary guarantors, payment and performance of FinCo's obligations under the RCF when due if not promptly paid by FinCo for the benefit of the lenders.

In connection with a Tax Benefit Payment Agreement entered into between FinCo, as payor, and Goldman Sachs, as payee, in 2013, GAFLL and GAFG have agreed to guarantee the payment and performance of FinCo, for the benefit of Goldman Sachs. In connection with the KKR transaction, effective February 1, 2021, GAFLL merged with and into GAFG and is no longer a party to the agreement.

The Company has certain contingent funding obligations related to development-stage renewable energy projects in the amount of \$322 million, as of March 31, 2026, with expiration dates occurring between March 2027 and September 2027. For accounting purposes, these contingent funding obligations are considered guarantees of the obligations of the development-stage renewable energy projects.

On January 16, 2026, in connection with the 364-day \$3.0 billion GA OpCo Credit Facility entered into by certain direct and indirect insurance company subsidiaries of the Company (as defined above, the "GA OpCo Borrowers"), the Company and FinCo have agreed to jointly and severally guarantee for the benefit of the lenders payment and performance of the GA OpCo Borrowers' obligations under the GA OpCo Credit Facility when due if not promptly paid by the GA OpCo Borrower. The guarantee provided by the Company and FinCo is released when all commitments and obligations under the GA OpCo Credit Facility have been paid in full or when the GA OpCo Credit Facility commitments expire or are terminated in accordance with the terms of the GA OpCo Credit Facility.

Legal matters

The Company is currently and expects to become from time to time involved in litigation and regulatory actions. Litigation, including class actions, or regulatory actions could result in the payment of substantial settlements, increase costs, require changes to operations, divert management attention, cause reputational harm or make it more challenging to attract and retain customers, employees, and agents at the Company. Such matters include pending examinations, including those related to policy administration, and class action lawsuits, including those related to safeguarding of customer data. Given the inherent difficulty of predicting the outcome of the Company's litigation and regulatory matters, particularly in cases or proceedings in which substantial or indeterminate damages or fines are sought, the Company cannot estimate losses or ranges of losses for cases or proceedings where there is only a reasonable possibility that a loss may be incurred.

Although the Company's ultimate legal and financial responsibility and our actual future expenditures to address regulatory, litigation, and related matters cannot be estimated at this time and could prove to be materially different from the amount that we accrue or reserve for, the Company believes that certain liabilities are probable and can be reasonably estimated and accordingly has recorded a total reserve for all regulatory, litigation, and related matters of approximately \$3 million as of both March 31, 2026, and December 31, 2025, respectively.

Financing arrangements

The Company has financing arrangements with unaffiliated third parties to support the reserves of its affiliated special purpose reinsurers. Total fees associated with these financing arrangements were \$5 million for both the three months ended March 31, 2026, and 2025, respectively, and are included in policy and other operating expenses in the consolidated statements of operations. As of both March 31, 2026, and December 31, 2025, the total capacity of the financing arrangements with third parties was \$2.6 billion, respectively.

Other than the matters disclosed above, there were no outstanding or unpaid balances from the financing arrangements with unaffiliated third parties as of both March 31, 2026, and December 31, 2025.

16. Subsequent events

The Company evaluated all events and transactions through May 11, 2026, the date the accompanying consolidated financial statements were available to be issued, that would merit recognition or disclosures in the consolidated financial statements, and determined there were none.
