Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Forethought Life Insurance Company (“the Company”) are presented on the basis of accounting practices prescribed or permitted by the Indiana Department of Insurance.

The Indiana Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Indiana for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under Indiana Insurance Law. The National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Indiana.

The Company, with the permission of the Commissioner of Insurance of the State of Indiana, uses the Plan Type A discount rate with a guaranteed duration of less than five years under Actuarial Guideline 33 (AG33) on the entire in-force block of annuities with Guaranteed Minimum Withdrawal Benefits issued prior to October 1, 2013. By definition, AG33 would require the defined payments of the Guaranteed Lifetime Income Benefit (GLIB) benefit stream to be discounted using the Type B or Type C rate until the policy’s contract value is exhausted and the additional payments to be discounted using the Type A rate.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Indiana is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments that have original maturities of greater than three months and less than twelve months at date of purchase are carried at amortized cost, which approximates fair value.
- (2) Bonds not backed by loans are valued at amortized cost using the scientific interest method. Bonds in or near default (NAIC class 6) are stated at the lower of amortized cost or fair value. The Company holds certain SVO designated securities and has elected to use a systematic value measurement method to value those securities.
- (3) Unaffiliated common stocks are stated at fair value. Fair value has been determined using quoted market prices for publicly-traded securities and management’s pricing model for private placement securities.
- (4) Preferred stocks are stated at cost or amortized cost except those rated NAIC class 4 or lower quality, which are carried at the lower of cost or fair value.
- (5) Mortgage loans on real estate are carried at unpaid principal balance, net of discount/premiums and valuation allowance for impairments.
- (6) Asset-backed securities are stated at amortized cost using the interest method including anticipated prepayments at the date of purchase in accordance with Statement of Statutory Accounting Principles (“SSAP”) No. 43 - *Asset-backed Securities*. Changes in prepayment speeds and estimated cash flows from the original purchase assumptions are evaluated quarterly and are accounted for on the prospective basis.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

- (7) Investments in common stocks of subsidiaries are stated at the value of their statutory equity adjusted for unamortized goodwill, if any.
- (8) The Company has ownership interests in limited partnerships. The Company carries these interests based upon their proportionate share of the underlying GAAP equity of the corresponding limited partnership.
- (9) Most derivatives are generally carried at carried at fair value, but some derivatives for which we have applied hedge accounting, they are carried at amortized cost, consistent with the hedged item.

The Company utilizes CPI swaps which hedge exposure to inflation risk associated with its prefunded funeral insurance business and are carried at value consistent with the hedged liabilities. The unrealized gains or losses on foreign currency forwards hedge the Company's exposure to foreign currencies, and are carried at fair value.
- (10) The Company has no premium deficiency reserves.
- (11) The Company began writing Medicare Supplement Insurance in 2010. Unpaid losses and loss adjustment expenses are based on past experience for losses incurred but not reported. The methods for making such estimates and establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company does not have any pharmaceutical rebate receivables.

D. Going Concern

There is no substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

Accounting Changes

Principles Based Bond Definition Project

Effective January 2025, the NAIC Statutory Accounting Principles Working Group adopted reporting changes under the Principles Based Bond Definition project. These reporting changes required review of the Company's bond portfolio to determine whether or not each security meets the new principles-based definition of a bond under SSAP 26. The review of the bond portfolio included evaluation of the economic substance of each security relative to the revised guidance in SSAP 26 Bonds, 43 Asset-backed Securities, and SSAP 21 Other Admitted Assets. The impact of these changes is outlined in Note 21 C of this statement.

Net negative IMR

In August 2023, the NAIC Statutory Accounting Principles Working Group adopted changes that allow companies to admit net negative interest maintenance reserves (IMR) with certain criteria. A company with at least 300% ACL RBC, shall admit net negative IMR as an asset across both general and separate accounts in the amount up to 10% of adjusted capital and surplus of the general account. In addition, an amount equal to the admitted net negative IMR must be included in special surplus from unassigned surplus. A company that admits net negative IMR must include accompanying disclosures. The accounting changes are effective through December 31, 2026 and are nullified as of January 1, 2027.

The Company had \$119,753,139 gross negative IMR, of which \$119,753,139 of net negative IMR was presented as an admitted asset in the general account, as of December 31, 2025. There was no negative IMR amount recorded which related to insulated or non-insulated separate accounts.

The adjusted surplus amount used to calculate the 10% limit was \$4,080,389,775 based on reported surplus as of September 30, 2025, adjusted as prescribed for certain balances.

The Company attests that:

- a. Fixed income investments generating IMR losses comply with the reporting entity's investment and liability management policies.
- b. IMR losses for fixed income related derivatives are all in accordance with prudent and documented risk management procedures, in accordance with a reporting entity's derivative use plans and reflect symmetry with historical treatment in which unrealized derivative gains were reversed to IMR and amortized in lieu of being recognized as realized gains upon derivative termination.
- c. Any deviation to (a) was either because of temporary and transitory timing issue or related to a specific event, such as a reinsurance transaction, that mechanically made the cause of IMR losses not reflective of reinvestment activities.
- d. Asset sales that were generating admitted negative IMR were not completed by liquidity pressures (e.g., to fund significant cash outflows including, but not limited to excess withdrawals and collateral calls).

Correction of Errors

During 2025, corrections were made to 2024 balances resulting in a correction to premiums, expense allowances, reserves, and deferred gains. In accordance with SSAP No. 3 - Accounting Changes and Corrections of Errors, these changes are being treated as a correction of an error and presented as an adjustment to unassigned surplus of \$13,566,081 for the period ended June 30, 2025.

During 2024, corrections were made to 2022 and 2021 balances resulting in an increase in insurance taxes, licenses, and fees of \$522,604 and \$222,904 respectively. As a result of this correction, \$692,389 of state income tax payables were written off. In accordance with SSAP No. 3 - Accounting Changes and Corrections of Errors, these changes are being treated as a correction of an error and presented as an adjustment to unassigned surplus of \$53,119 for the period ended December 31, 2024.

Notes to the Financial Statements

In accordance with SSAP No. 3 - Accounting Changes and Corrections of Errors, these changes are being treated as a correction of an error and presented as an adjustment to unassigned surplus of \$3,888,836 for the period ended December 31, 2024.

8. Derivative Instruments

A. Derivatives under SSAP No. 86 - Derivatives

- (1) The Company's derivative instruments are primarily used to hedge a wide range of risks including interest rate risk, equity market risk, foreign exchange risk, and credit risk. The Company receives collateral from its derivative counterparties to limit credit risk.
- (2) The Company's derivative portfolio consists of equity index call options and spreads to hedge equity exposure associated with Equity Indexed Annuities underwritten. The Company utilizes the interest rate swaps and bond forwards to hedge the exposure to interest rate risk. The Company limits the general business risk by entering into equity index futures, options and interest rate swaps. The total carrying value of derivative assets were \$1,753,839,492 and \$1,056,336,393 as of December 31, 2025 and December 31, 2024, respectively.
- (3) Under SSAP No. 86, Derivatives, the Company has elected to account for its derivatives using the fair value method of accounting, with changes in fair value recorded as unrealized investment gains or losses. The realized gains or losses are recorded upon the derivative contract expiry. The Company entered into interest rate swaps hedging Federal Home Loan Bank liabilities and Funding Agreement Backed Note deposit liabilities, which both employ hedge accounting. In addition, the Company has designated cash flow hedge interest rate swaps to hedge the interest rate risk associated with floating rate investments and fair value hedge cross currency swaps to hedge the foreign currency risk associated with foreign currency-denominated bonds. The derivatives that hedge those assets and liabilities are valued in a manner consistent with the underlying hedged item, which are carried at amortized cost.
- (4) Derivative contracts with financing premiums - Not Applicable
- (5) Net gain or loss recognized - Not Applicable
- (6) Net gain or loss recognized from derivatives no longer qualifying for hedge accounting - Not Applicable
- (7) Net investment income and realized gains and losses related to derivatives are reported within the investing section of the statement of cash flows.
- (8) The Company has designated bond forwards to hedge the interest rate risk associated with the planned purchase of AFS debt securities in a cash flow hedge. Regression analysis is used to assess the effectiveness of this hedge. For the quarter ended December 31, 2025, the bond forwards were recorded at cost. Following the qualifying purchases of AFS securities, the fair value of the portion of the bond forward associated with each purchase will be adjusted to the AFS book values, and accretion or amortization will be recognized over the life of the securities using the effective interest method. This arrangement is hedging purchases through December 2029 and is expected to affect earnings until 2055. There were no AFS securities purchased for the quarter ended December 31, 2025, and no fair value of the hedge associated with each purchase was adjusted to the AFS security book values.
- (9) Premium Cost for Derivative Contracts - Not Applicable
- (10) Aggregate excluded components by category - Not Applicable

The Company is a party to a written agreement, approved by the Company's Board of Directors, which sets forth the manner in which the total combined federal income tax is allocated to each entity within the consolidated group.
 - (2) The IRS routinely audits the Company's federal income tax returns, and when appropriate, provisions are made in the financial statements in anticipation of the results of these audits. The Company believes that its income tax filing positions and deductions will be sustained on audit, and does not anticipate any adjustments that will result in a material, adverse effect on the Company's financial condition, results of operations, or cash flow. Therefore, no reasonable estimate can be made for tax loss contingencies and none has been recorded.

A. Nature of Relationships

On February 1, 2021, KKR & Co. Inc. 14. Liabilities, Contingencies and Assessments (Continued)

B. Assessments

Unfavorable economic conditions may contribute to an increase in the number of insurance companies that are under regulatory supervision. This may result in an increase in mandatory assessments by state guaranty funds, or voluntary payments by solvent insurance companies to cover losses to policyholders of insolvent or rehabilitated companies. Mandatory assessments, which are subject to statutory limits, can be partially recovered through a reduction in future premium taxes in some states. The Company is not able to reasonably estimate the potential impact of any such future assessments or voluntary payments.
